At the suggestion of Robert Taylor (PM #25), Lyn Meville of American Cyanamid phoned Toxicology Branch on August 26, 1981 to inquire as to whether Toxicology Branch would have any objection to the following addition to the "first aid" statement on the label for Prowl®, EPA Reg. No. 241-243. (This addition was originally requested by the California Department of Food and Agriculture when American Cyanamid requested state registration of this product.)

Add the sentence: "This product contains monochlorobenzene."

Lyn Meville was informed that Toxicology Branch would have no objection to the addition of this sentence to the label.
