

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

MAY 13 1983

OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

TO: Douglas Campt, Director  
Registration Division (TS-767/C)

THRU: James G. Touhey, Director  
Benefits and Use Division (TS-768/S)

SUBJECT: Transmittal of GLP Inspection and/or Data Audit on Pesticide Study.

Attached is an investigation report on a GLP and/or data audit conducted at the request of the OPP National Laboratory Audit Program. The findings of the investigation on the registration of the pesticide and/or chemical involved.

<u>Audit attempted</u>	<u>Laboratory inspected</u>	<u>Type Study</u>	<u>Chemical involved</u>	<u>Accession no.</u>
03/17/83	Mobay (Stanley Res. Farm)	Metabolism/Cow Human safety	Bayleton Amaze	099165 (pp 152-206) 243557

Please review the investigation report and determine impact findings might have on studies and/or chemical involved. A report of contemplated regulatory action (including a negative one) would be appreciated to permit closing this investigation. A copy of your reply will be placed in the investigation file.

A prompt response on any anticipated enforcement action contemplated based on the investigation findings would be appreciated so that PTSED can proceed with processing the report.

John A. McCann, Coordinator  
National Laboratory Audit Program (TS-768/C)

Attachment:  
EIR/Mobay  
with Exhibits 1-12.
