04/26/2001

TO: Jane-Scott Smith/Jim Tompkins
Registration Division (7505C)

This memo is a follow up to our meeting with RD on 3/21/2001 on the proposed clethodim use on canola (PP# 7F04873). Based on what was discussed at the meeting and the subsequent information provided by the registrant and the Canola Council (e-mail message dated 3/22/2001 from J. Tompkins), HED proposes that, in the interim, the tolerance on canola be set at 0.50 ppm with a preharvest interval of 75 days.
