SUBJECT: EEB Review of Cyromazine - Submission of Control Mortality Response
of Daphnia in 48-hr Acute Toxicity Test.

EEB has reviewed the control mortality data for Daphnia magna tested with technical Cyromazine, submitted by Ciba-Geigy under Acc. No. 250096. This information was requested in our previous review, dated 9-20-82.

The control mortality submitted for review is zero (0), indicating that the study is scientifically sound. We find that the subject study (Acc. No. 070912) is now acceptable to support full registrations for technical Cyromazine and Larvadex 0.3% Premix.
