7. CONCLUSIONS:

EFGWB does not review dietary, drinking water, or applicator exposure data nor exposure estimate methodologies. The Ground Water Team of EFGWB does not do risk management nor write the label language for ground water contamination.

8. RECOMMENDATION:

EFGWB recommends RD reroute this Acetochlor Support Document (R.D.879) to the appropriate branches of OPP for their review.

9. BACKGROUND:

On 7/25/88, Monsanto Chemical Co. submitted a complete Acetochlor Support Document (R.D. 879) which is an extensive outline of the rationale for registration of Harness® and Top-Hand® herbicides.
