MEMORANDUM

SUBJECT: Request For Approval Of Aerial Application Of Ally
Herbicide For Weed Control In Pastures And Rangeland

FROM: *for* James W. Akerman, Chief
Ecological Effects Branch (H7505C)
Environmental Fate And Effects Division *by Douglas E. [signature]* 6/7/91

TO: Robert Taylor, PM-25
Fungicide/Herbicide Branch (H7505C)
Registration Division

The Ecological Effects Branch (EEB) is unable to consider the request for approval of aerial application of metsulfuron methyl (Ally) herbicide for weed control in pastures and rangeland until after review and validation of the attached aerial drift study by Environmental Fate And Groundwater Branch (EFGWB).

This package should be routed to Robert Hitch in EFGWB for his review.
