100.0 Comments:

a. Ask your suppliers to submit complete chemical composition of [REDACTED]

In the composition include chemical name, CAS Registry number and percentage of each component for the mixtures.

b. Verify the upper certified limit for the active ingredient. Note that the nominal concentration should be bracketed by the upper and lower limit. The upper certified limit as stated in your Confidential Statement of Formula is too high and it does not agree with the product specification sheet. Please clarify this discrepancy and submit revised Confidential Statement of Formula with correct certified limits.

c. The enclosed product chemistry data is in compliance with 40 CFR part 158.155 through 158.190 and is acceptable.

The storage and stability data, Guidelines Ref. No. 63- will be submitted within 15 months after the granting of registration.

Product chemistry data contains Good Laboratory Practice Compliance certification and date is assigned MRED No. 42170-1.

Label claim is in compliance with PR Notice 91-2, the nominal concentration.

Note to PM:

Enclosed Material Safety Data Sheet do not give complete chemical identities of the above products.

PRODUCT INGREDIENT SOURCE INFORMATION IS NOT INCLUDED
