Deferrals To:

Ecological Effects Branch

Residue Chemistry Branch

Toxicology Branch

## 1.0 INTRODUCTION

CIBA-Geigy has submitted corrected pages for previously submitted evaluation of potential health risk.

### EAB response

The submitted corrected pages deal with risk assessment which is reviewed by Toxicology Branch. No exposure assessment data, which would be reviewed by EAB, were included. EAB records show no exposure assessment study has been submitted to EAB for review.

EAB, in review dated 10/21/83, considered additional environmental fate data to support the registrant proposed use of Banner on turf grass. Those data were submitted in EPA Accession No. 250783.

If it is necessary for EAB to review an exposure study included in EPA Accession No. 251239, it should be submitted.
