WASHINGTON, D.C. 20460

JUN 27 1988

MEMORANDUM

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

SUBJECT: EPA Reg. No. 279-3052. Command^R Technical Herbicide.
Toxicology Branch response to RCB deferral regarding
amended registration.

FROM: Richard Loranger, Chemist *R. Loranger*
Residue Chemistry Branch
Hazard Evaluation Division (TS-769C)

THRU: Andrew Rathman, Section Head *ARR*
Residue Chemistry Branch
Hazard Evaluation Division (TS-769C)

TO: R. Taylor/J. Yowell, PM Team 25
Registration Division (TS-767C)

Toxicology Branch (TB) has responded to our 5/27/88 deferral for an incremental risk assessment with respect to the proposed changes in the formula of Command^R Technical Herbicide (2-[(2-chlorophenyl)methyl]-4,4-dimethyl-3-isoxazolidinone; proposed common name=clomazone). The amendment requested by FMC Corporation includes [REDACTED]

The TB response (Whang Phang, 6/24/88, copy attached) states that "At present, these changes do not pose significant toxicological concerns." With this conclusion by TB we can now recommend for the amended registration of Command^R Technical Herbicide.
