SUBSTANCES

SUBJECT: Results of the Method Trials for the Active Ingredient  
Quizalofop P-Ethyl (Assure II; D-NC-302)

FROM: Alfred Smith, Chemist  
Product Chemistry Review Section  
Registration Support Branch  
Registration Division (H7505C)

TO: Robert Taylor, PM 25  
Fungicide-Herbicide Branch  
Registration Division (H7505C)

The Analytical Chemistry Section (ACB/BEAD) has performed method trials for the determination of the active ingredient (ai) quizalofop P-ethyl, ethyl (R)-2-[4-[(6-chloro-2-quinoxalin-2-yl)oxy]phenoxy]propionate in the technical product Assure II Technical and the end-use product (EP) Du Pont Assure II.

Enclosed are the results of the method trials.

PCRS/RSB concludes that the analytical method is adequate for the determination of the ai in the products tested.

Page \_\_\_\_ is not included in this copy.

Pages 2 through 3 are not included.

---

The material not included contains the following type of information:

- ☐ Identity of product inert ingredients.
  - ☐ Identity of product impurities.
  - ☐ Description of the product manufacturing process.
  - ☒ Description of quality control procedures.
  - ☐ Identity of the source of product ingredients.
  - ☐ Sales or other commercial/financial information.
  - ☐ A draft product label.
  - ☐ The product confidential statement of formula.
  - ☐ Information about a pending registration action.
  - ☐ FIFRA registration data.
  - ☐ The document is a duplicate of page(s) \_\_\_\_\_.
  - ☐ The document is not responsive to the request.
- 

The information not included is generally considered confidential by product registrants. If you have any questions, please contact the individual who prepared the response to your request.
