Registration Division, Office Of Pesticide Programs

DATE: 2/28/91

PRODUCT CHEMIST/REVIEWER: Amelia M. Acierto 

PAGE: 1

COMPANY: Dupont Agricultural Products

EPA REG. NO: 352-538

PRODUCT NAME: Dupont Harmony Extra Herbicide

TO PM NO: 23

ACTION CODE: 345

BACKGROUND: response to 9/11/90 PCRS review

ACTIVE INGREDIENT LABEL CLAIM/LATEST LABEL CLAIM (DATED)

Methyl 3-[[[(4-methoxy-6-methyl-1,3,5-triazin-2-yl) amino]carbonyl]amino]sulfonyl]-2-thiophenecarboxylate 50%

Methyl 2-[[[N-(4-methoxy-6-methyl-1,3,5-triazin-2-yl) methylamino]carbonyl]amino]sulfonyl]benzoate 25%

REFERENCES USED: 352-529

FOOD USE (x) INERTS CLEARED: C (x), D () NON FOOD USE ()
CFR 21 PARTS 170-199: () TOXIC INERTS LIST 1(), 2()

NOTE TO PM:

COMMENTS:

(1) The label claim of your source product should be as precise as possible reflecting good manufacturing practice. If there may be unavoidable variation between manufacturing batches, the label claim should be the lowest percentage which may be present.

It is the percentage claimed on the label that is the basis of our review. The word "minimum" should be deleted from the ingredient statement. If your technical source product has now been found to be of higher purity as supported by analyses of at least 5 batches of the product, an amended registration should be filed according to the requirements of 40 CFR Part 152.44 for application for amended registration. Based on this, our original review stands.

(2) Based on the statement in your letter dated 12/13/90 that there is a need to over-formulate to allow for some decomposition during the shelf-life of the product, it may be necessary to add an expiration date on the label.

(3) Provide storage stability data of at least 5 batches of this product.
