Aplicación en construcciones nuevas y ya existentes para controlar las cucarachas y otros insectos: Cuando trate áreas grandes, tales como suelos, sótanos y debajo de gabinetes, coloque generosamente. Coloque las tabletas en las fisuras de los muros, techos, los ejes de las aberturas y las ranuras para la basura. En cuartos de almacenaje, aplique debajo de los pablos y detrás de las cajas.

Este contenedor se vende por peso, NO por volumen. Liquid puede estar seguro del peso correcto aunque normalmente ocurre un poco de asentamiento de contenido durante transporte y uso.
