GARDEN DUST

GARDEN DUST FOR VEGETABLES, FLOWERS is a specially formulated insecticide and fungicide designed for maximum consumer safety when used as directed. Colored green to blend with foliage, and packed in a convenient squeeze dust can. It does not contain Methoxychlor, Malathion, DDD, DDT, Lindane, Ferbam, Captan, Dieldrin or other organic pesticides restricted in use on vegetables and fruits. Therefore, Garden Dust for Vegetables, Flowers can be used without a waiting period.

Flowers is recommended to control chewing, sucking and rasping insects such as beetles, (Common and spotted asparagus, Mexican Bean, bean leaf, flea, striped and spotted cucumber, Colorado potato, blister and Japanese), Aphids (Melon, Potato, Chrysanthemum, Dahlia, Rose, Sweet Peas). Reduce damage by melon and pickle worms, squash vine borer, leaf rollers (before leaves fall), and diseases such as Anthracnose, powdery mildew, leaf spot, early and late blights and Septoria leaf spot common to ~~flowers, tomatoes~~ ^{tomatoes, cucumbers}.

CAUTION: Stop application to food crops one day before harvest.

DIRECTIONS FOR HOME USE:

Shake can to fluff powder. Press sides of can with fingers rapidly for dust effect. Cover both tops and undersides of leaves with thin uniform film of dust or spray.

AS A SPRAY: Mix 2 tbspn. per quart of water, make a paste, strain, add rest of water, agitate to prevent nozzle-plugging. Repeat treatment as required, usually every 7 to 10 days. Start applying when plants leaf out in the spring before insects and diseases appear as it is easier to prevent than cure certain diseases. Try to hit as many insects as possible. Best results are obtained in early morning or evening when wind is at ebb. Avoid use during high temperatures on plants susceptible to sulphur injury, such as melons, squash, cantaloups, and related plants. Store out of reach of children and do not take internally.

Keep away from fire or flame. © 1965 by **1 LB. NET** 12504 Rev. No. 4-107
