Subject Submission of amended labeling per May 2009 Malathion RED Label Table EPA Reg No 4-122 Decision # 416276

Dear Ms Horton

The proposed labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable under FIFRA § 3(c)(5) provided that you submit two copies of your final printed label before you release the product for shipment Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec 6(e)

The Basic Confidential Statement of Formula (CSF) dated 10/15/09 is acceptable The Alternate Confidential Statements of Formula #s 1, 2, and 3 are acceptable All other CSF's have been superseded by these CSFs These have been added to your record

Your product has met and complied with the risk mitigation provisions of the Malathion RED and therefore your product is reregistered pursuant to FIFRA § 4(g)(2)(C) But note, EPA is currently reassessing the cumulative impacts of organophosphates and that review may impact your product once complete

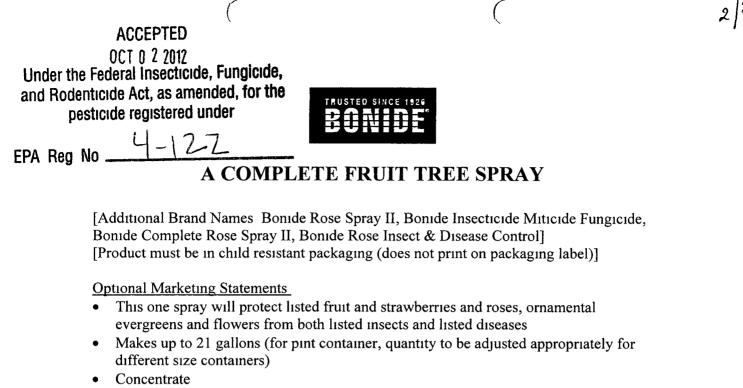

A stamped copy 1s enclosed for your records If you have any questions, please contact Dr Jennifer Urbanski at 703-347-0156 or urbanski jennifer@epa gov

Regards,

Venus Tage

Venus Eagle Insecticide-Rodenticide Branch Registration Division (7505P)

Enclosure

• Controls both listed insects and listed diseases on Fruit Trees, Flowers, Ornamental Evergreens, Strawberries

Leaf hopper Leaf Spot Codling Moth

• Spray for control of listed insects, disease and mites on roses, flowers and ornamentals

Controls Listed insects including Japanese beetles, mites, flea beetles, aphids and listed diseases including black spot, downy mildew, brown rot, coryneum blight **USE** to protect apples, cherries, grapes, strawberries, peaches, roses, ornamental evergreens, and flowers MIX $1\frac{1}{2}$ to $2\frac{1}{2}$ Tbs [0 75 to 1 25 fl oz] per gallon of water as directed in the directions for use Easy to use, mixes with water instantly, no pre-mixing **Read and use according to label directions** Apply using a hose end or tank sprayer

Active Ingredients	
Captan (CAS No 133-06-2)	11 76%
Related Derivatives	0 24%
Malathion (CAS No 121-75-5)	6 00%
Carbaryl (CAS No 63-25-2)	0 30%
*Other Ingredients	81 70%
Total	100 00%
*Contains Petroleum Distillate	

KEEP OUT OF REACH OF CHILDREN WARNING

See back/side/other panel(s) for first aid and additional Precautionary Statements

	FIRST AID					
	contains an organophosphate					
If on skin or clothing	Take off contaminated clothing Rinse skin immediately with plenty of water for 15-20 minutes Call a poison control center or doctor for treatment advice					
If m eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye Call a poison control center or doctor for treatment advice					
If swallowed	Immediately call a poison control center or doctor Do not induce vomiting unless told to do so by a poison control center or doctor Do not give any liquid to the person Do not give anything by mouth to an unconscious person					
If inhaled	Move person to fresh air If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably by mouth- to-mouth, if possible Call a poison control center or doctor for further treatment advice					
doctor, or going	container or label with you when calling a poison control center or for treatment You may also contact the National Pesticide er at 1-800-858-7378 for emergency medical treatment					
NOTE TO PHY	SICIAN Probable mucosal damage may contraindicate the use of					
5	ay pose aspiration pneumonia hazard Contains petroleum distillate cause cholinesterase inhibition Atropine is antidotal					

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

WARNING Causes substantial but temporary eye injury Causes skin irritation Harmful if swallowed Harmful if inhaled Do not get in eyes, on skin or on clothing Avoid breathing spray mist or vapor Wear coveralls over short sleeved shirt and short pants, socks, chemical resistant footwear, protective eyewear (goggles, face shield, safety glasses), and chemical resistant gloves (barrier laminate or viton, selection category G)

User Safety Recommendations

- Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet
- Remove clothing/PPE immediately if pesticide soaks clothing Change clothing as soon as possible after use
- Wash the outside of gloves before removing

Environmental Hazards

This product is extremely toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

BEE CAUTION This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area

Physical and Chemical Hazards

Extremely flammable Keep away from fire, sparks and heated surfaces

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

Not for use on plants being grown for sale or commercial use, or for commercial seed production, or for research purposes Use on listed fruits and vegetables is limited to home gardens

BONIDE A COMPLETE FRUIT TREE SPRAY is a complete concentrate containing insecticide, fungicide, aphicide, miticide, scalicide and spreadersticker Easy to use, mixes with water instantly no plugged nozzles, no messy powders to handle, measure or mix, no pre-mixing or straining necessary Intended for homeowner use to protect apples, cherries, grapes, peaches, strawberries, roses, ornamental evergreens and flowers from the ravages of insects and diseases listed

Use Restrictions

- For outdoor use only
- DO NOT APPLY THIS PRODUCT IN A WAY THAT WILL CONTACT ANY PERSON OR PET, EITHER DIRECTLY OR THROUGH DRIFT KEEP PEOPLE AND PETS OUT OF THE AREA DURING APPLICATION
- This product may be applied only by hand-held garden sprayers or hose-end sprayers
- Do not allow people or pets to enter the treated area until sprays have dried
- Apply when air is calm (not more than 10 mph) adjusting sprayer nozzle for largest droplet size
- Do not spray when temperature is greater than 85° F
- Do not use on large trees Do not use where foliage to be treated extends beyond spray coverage of application equipment
- Do not apply if rain is expected before leaf surfaces dry

EPA Reg No 4-122 Sept 26, 2012 - revised • Do not use food utensils such as teaspoons or tablespoons for food purposes after use with pesticides

SHAKE PRODUCT THOROUGHLY BEFORE USE Contains micronic particles which settle upon standing and require reblending by agitation Choose a cool, calm period, preferable early morning or evening, when trees will not be subjected to hot direct rays of the sun. It is easier to prevent disease and scale damage than to cure same, therefore, a preventative spray schedule (see Table) is recommended. When insects or active disease spores are present (warm humid days), use higher specified application rate (see Table). Apply spray to leaves, fruit branches, trunk and base of tree until lightly dripping. Shake sprayer occasionally or agitate to keep spray particles in suspension during application. Spray thoroughly to wet upper and lower leaf surfaces, stems and branches. Carefully read and follow the spray schedule in Table.

APPLES

Insects/Diseases Apple maggots, codling moths, Japanese beetles, leaf hoppers, plum curculios, aphids, bud moth, Forbes scale, eastern tent caterpillar, red banded leaf roller, mites, bitter rot, black rot, frogeye, leaf spot, Botryosphaeria (white rot), botrytis rot, bullseye rot, Brooks fruit spot, flyspeck, cedar rust, quince rust, scab, sooty blotch

CHERRIES

Insects/Diseases Plum curculios, cherry fruit flies, cherry fruit worms, black cherry aphid, fruit tree leaf roller, bud moth, Japanese beetle, Botrytis rot, brown rot blossom blight and fruit rot, cherry leaf spot

GRAPES

Insects/Diseases Flea beetles, Japanese beetles, grape leaf skeletonizers, rose chafers, grape berry moth, spider mites, mealybugs, leafhoppers, black rot, downy mildew (berries only), botrytis rot

PEACHES

Insects/Diseases Plum curculios, Japanese beetle, spider mite, oriental fruit moth, green, peach, black cherry, black peach, rusty plum aphids, brown rot (fruit), rhizopus, scab, brown rot (blossom blight), coryneum blight

FRUIT TREE STAGES

Dormant Absence of growth fall, winter or spring Green Tip Stage When branch tips show green tissue Pre Bloom Stage When blossom buds show full color before opening Bloom When blossoms are open Do not apply to plants in bloom Petal Fall Stage When last petals have fallen from blossoms 1st Cover 7-10 days after petal fall 2nd Cover to Harvest To cut-off date before harvest All rates in chart below are given Tablespoons per gallon Shake well before using

Fruit	Green Tip	Pre Bloom	Full Pink	Petal Fall	1 st Cover	2 nd Cover			
Apple	11/2 Tbs	21/2 Tbs	21/2 Tbs	21/2 Tbs	21/2 Tbs	21/2 Tbs			
	Do not exceed 2 applications per year Do not apply within 14 days of harvest								
	Minimum retreatment interval 7 days								
Cherry	11/2 Tbs	21⁄2 Tbs	21⁄2 Tbs	21⁄2 Tbs	2½ Tbs	2½ Tbs			
	Do not exceed 4 applications per year Do not apply within 14 days of harvest								
	Minimum retreatment interval 7 days								
Grape	11/2 Tbs	21/2 Tbs	21/2 Tbs	21/2 Tbs	2½ Tbs	21/2 Tbs			
-	Do not use more than 2 qts of spray suspension per 100 sq ft of grapevine Do not								
	exceed 2 applications per year Do not apply within 7 days of harvest Minimum								
	retreatment interval 14 days Not for use in California								
Peach	1½ Tbs	1½ Tbs	2½ Tbs	2½ Tbs	2½ Tbs	2½ Tbs			
	Do not exceed 3 applications per year Do not apply within 21 days of harvest								
	Minimum retreatment interval 11 days								

SPRAY CHART

STRAWBERRIES

Insects/Disease Strawberry weevils, aphids, spider mites, lygus bugs, flea beetles, omnivorous leaftier, spittle bugs, Japanese beetles, field crickets, Botrytis rot (gray mold), leaf spots **Use 2¹/₂ teaspoons concentrate per gal of water** Do not use more than 3 qts of spray suspension per 100 sq ft of strawberries (broadcast spray) or per 100 linear feet of band or row 1 ft wide (banded or directed) spray per single application Make no more than 4 applications per growing season Do not apply within 14 days of harvest Minimum retreatment interval 7 days Not for use in California

ROSES, ORNAMENTAL EVERGREENS AND FLOWERS M1x 1½ Tablespoons per gallon of water

Insects Aphids, apple maggot, bagworm, black cutworm, bud moth, cherry fruit fly and worm, codling moth, plum curculios, flea beetles, fruit tree leaf roller, gypsy moth, Japanese beetle, leaf hoppers, lesser peach tree borer, mealybug, mites (clover, European red, two-spotted and Wilmette), oriental fruit moth, pear slugs, psylla, red banded leaf roller, scale (Forbes, Putman, San Jose), spittle bug, tent caterpillars, unspotted tentiform leaf miner, and yellow neck caterpillar

Diseases CARNATION (Rust, Alternaria Leaf Spot), CHRYSANTHEMUMS (**Botrytis Flower Blight, ROSE (Black Spot)** - Apply at first sign of disease Repeat at 7 to 10 day intervals Use the shorter interval under conditions favorable to infection

Begin applications when pests or disease symptoms first appear or conditions favor their development and repeat at weekly intervals or as necessary to maintain control Remember, it is easier to prevent damage than to cure it Therefore, a preventative spray schedule is recommended, starting at early signs of plant growth Do not use if rain is expected shortly after application Select still periods for application (early morning or

EPA Reg No 4-122 Sept 26, 2012 - revised EPA Est No 4-NY-1 Page 5 of 6 Pages

1

evening) Do not exceed 6 applications per year on flowers and roses Do not exceed 4 applications per year on ornamental evergreens

2 tablespoons = 1 fluid ounce = $\frac{1}{128}$ gallon

 $[2\frac{1}{2}$ Tbs = 1 25 fl oz, $1\frac{1}{2}$ Tbs = 0 75 fl oz, $2\frac{1}{2}$ teaspoons = 0 42 fl oz]

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal **Pesticide Storage** This product should be stored in the original unopened container in a secure, dry place Do not contaminate with other pesticides or fertilizers The product should never be heated above 55°C (131°F), and should not be stored for long periods of time at a temperature in excess of 25°C (77°F) Store and transport in an upright position

Pesticide Disposal *If partly filled*—Call you local solid waste agency for disposal instructions Never place unused product down any indoor or outdoor drain

Container Disposal *If empty*–Nonrefillable container Do not reuse or refill this container Place in trash or offer for recycling if available

DISCLAIMER To the extent consistent with applicable law, buyer assumes all risks or use, storage or handling not in strict accordance with directions given herewith
