PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION

MAY IRRITATE EYES, NOSE, THROAT, AND SKIN. HARMFUL IF INHALED OR SWALLOWED.

Do not inhale spray mist. Do not get in eyes or on skin. May cause allergic skin reaction. Wash thoroughly after handling. Consumption of alcoholic beverages increase the toxic effects of thiram.

Statement of Practical Treatment

IF ON SKIN, wash with plenty of soap and water
IF IN EYES, flush with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This pesticide product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes. Drift or runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water or wetlands.

PHYSICAL & CHEMICAL HAZARDS

Do not expose to any heat expected to exceed 110°F. Keep from freezing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

BONIDE RABBIT, DEER REPELLENT AND BULB SAVER is a taste repellent that protects shrubs, fruit trees, ornamentals and nursery stock from rabbit, deer, pine and meadow mice consumption and destruction when used as directed. A single application will protect treated parts for 3 to 6 months depending on weather conditions and thoroughness of application.

BONIDE RABBIT, DEER REPELLENT AND BULB SAVER also offers additional benefits as an anti-transpirant, reducing damage due to water loss. Such damage as winter kill, summer scald and transplant shock is materially reduced when plants are completely covered. May also be used as a pruning and grafting spray to protect freshly cut areas on roses, trees and other shrubs and vines. An excellent bulb saver for dip treatment. Prevents basal rot and decay of gladiolus, tulips, dahlias, crocus, tuberous rooted begonias, gloxinias, caladiums bulbs, repels moles and pine and meadow mice.

DIRECTIONS

FOR PROTECTION OF ORNAMENTAL SHRUBS, TREES AND FRUIT TREES (NON-BEARING OR DORMANT) FROM RABBITS AND DEER: Stir well to remix before using. Apply when surface to be treated is dry and rain or snow is not expected for a few hours. This will allow film to set properly. Apply with paint brush, hand or pressure sprayer that will product a coarse wet spray. Thoroughly wet tree trunk, bark, branches, twigs and foliage of trees or shrubs to be protected. Be sure to treat areas well above reach of animals keeping in mind that as snow deepens, the height animals reach increases. In the spring treat new growth (except bearing fruit trees) as necessary.

FOR PROTECTION OF GLADIOLUS AND OTHER BULBS FROM MOLES: Dilute 1 pint of Rabbit-Deer Repellent with 1 gallon water. Dry bulbs before treatment. Shake well. Coat bulbs well with solution by dipping. If bulbs are to be stored, spread out to dry.

NOTE: Shake well. Nursery stock that are treated with this product must bear distinct labeling that instructs:

CAUTION: Treated with thiram. Wear rubber gloves and protective clothing when handling products treated with thiram. Direct exposure to skin may result in severe dermatitis.

STORAGE AND DISPOSAL

Storage: Store only in original container, in a dry place inaccessible to children and pets.

Disposal: Do not reuse empty container. Rinse thoroughly. Securely wrap in newspaper and discard in trash.
