

ANT DUST

W/DIAZINON®

FOR INSIDE OR OUTSIDE
HOUSEHOLD USE

KILLS ANTS and other insects
listed on side panel

ACTIVE INGREDIENTS:
O,O-diethyl 0-(2-isopropoxy-4-methyl-6-pyrimidinyl) phosphorothioate 1.0%
INERT INGREDIENTS 99.0%
Diazinon® is the registered T.M. of the Geigy Chemical Corp., New York

EPA Reg. No. 4204

CAUTION: KEEP OUT OF REACH OF CHILDREN
(See side panel cautions before use) **1 LB. NET WEIGHT**

DIRECTIONS

The small containers of this product are self contained dusters. By squeezing the sides with rapid motion, a dusting action not unlike mechanical dusters can be achieved. Light applications meaning a thin film of dust are sufficient. Do not apply where children are likely to come in frequent contact with treated areas. Do not contaminate food, food containers or cooking utensils. Repeat applications as necessary.

Ants and Silverfish (Indoors): Dust thoroughly areas around water pipes, in cracks, under and behind cabinets, refrigerators, and sinks, and around doors, windows and book cases.

Carpet Beetles: Dust along baseboards, under carpeting, rugs, furniture wherever these insects are seen or suspected.

Resistant and Non-resistant Cockroaches (Waterbugs): Dust thoroughly all areas where roaches crawl and hide, such as around water pipes, in cracks and crevices, under and behind cabinets, refrigerators and sinks.

Spiders and Scorpions (Indoors and Outdoors) — Dust around windows, doors and along baseboards. Make spot applications to surfaces over which these pests crawl, particularly in crawl spaces under houses and buildings.

Outdoors: To control ants and clover mites, treat a 5 foot band of soil around the house as well as the house foundation wall to height of 2-3 feet. Repeat application if necessary.

Box Elder Bugs: Apply dust to insects, at the same time thoroughly treat around foundation windows, doors, tree trunks, cracks and other places where the insects hide.

Ants and Digger Wasps: Spot treat thoroughly ant hills (day and night), and wasp ground nest openings at night. Cover openings after treatment.

CAUTION: Harmful if swallowed. May be absorbed through the skin. Avoid contamination of food and feed. Avoid inhalation of dust. Avoid contact with skin, eyes and clothing. In case of contact and after use, wash thoroughly with soap and water.

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse container. Destroy by burying, burning or disposal in safe place. Avoid smoke or fumes of burning.

Apply this product only as specified herein.
