98.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN

(See side panel cautions)

1 LB. NET WEIGHT

BONIDE SLUG & SNAIL KILLER is a bait. Mollusks feed and are killed. Can be applied any time, effective both during cool and warm seasons of the year. Unsightly, poisonous mounds of bait necessary and particle size is small to avoid attraction of pets and children.

DIRECTIONS

Apply BONIDE SLUG & SNAIL KILLER meal at the rate of 1 pound per 100 square feet of treatment area. Water the infested area thoroughly before application, then spread the meal evenly over the area. Special care should be taken to treat bedding plants or other low growing plants where pests feed and grow. Pests stop feeding soon after treatment, but kill may be delayed 3 to 5 days. Re-treat every 3 weeks as needed.

CAUTION: May be harmful if swallowed. Avoid contact with skin, eyes, or clothing. Wash thoroughly after handling. Avoid contamination of food, feed, and domestic water supplies. If swallowed, induce vomiting by giving an emetic such as two tablespoonfuls of salt in a glass of warm water. Call a physician immediately.

Note to Physician: Active ingredient has cholinergic effects. Treat symptomatically. Atropine is an antidote.

Keep children and pets off treated areas until this material is washed into soil and grass is dry.

This product is toxic to fish, wildlife and birds. Treated granules exposed on surface may be hazardous to birds and other wildlife. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Bury waste in non-cropland away from water supplies. Dispose of empty container by burning or by burying with waste.

Seller's warranty limited strictly to label claims.
