

ROACHPAINT
ANT-ROACH KILLER
FOR BRUSH OR SPRAY APPLICATION

ROACHPAINT is an insecticidal composition containing Chlordane and Pyrethrins, in high quality, quick-evaporating diluent, especially recommended for use in controlling ants, roaches, and water bugs.

ROACHPAINT is applied directly on the surface with a sprayer or paint brush, it is not necessary to spray to hit the insect.

ROACHPAINT dries rapidly, leaving no unsightly residue. It gives residual killing action, effective for 30 to 60 days. Insects traveling over treated surfaces are quickly controlled.

ROACHPAINT is not a repellent.

ACCEPTED

DEC 8 1972

U. S. FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
UNDER NO. 4-205

ROACHPAINT

ANT-ROACH KILLER

For Brush or Spray Application

ACTIVE INGREDIENTS:

*Chlordane Technical	2.00%
Pyrethrins	.10%
Piperonyl Butoxide	.50%
INERT INGREDIENTS:	97.40%
Equivalent to 1,2-Octachloro-4,7-methanoctetrahydroindane and 8% of related compounds.	

EPA Reg. No. 4-208

CAUTION: KEEP OUT OF REACH OF CHILDREN

(See side panel cautions) **1 PT. NET**

DIRECTIONS

ROACHES, WATERBUGS: (All varieties including resistant) Use a sprayer applying a coarse, wet spray or a paint brush and apply ROACHPAINT thoroughly on a "spot" basis to infested cracks, crevices, around water pipes, under and around cabinets, refrigerators and sinks, where insects have been resting, running or hiding. Repeat treatment as necessary to maintain effective control.

ANTS: Thoroughly treat ant trails around door sills and window frames where the pests may enter the premises. It is frequently desirable to treat the openings around water pipes, heat ducts, electrical outlets and baseboards where ants may come out into rooms from wall spaces and partitions. Repeat treatment as necessary to maintain effective control.

CAUTION!

Keep out of reach of children. Avoid inhalation of spray mist. Contact with skin can cause toxic symptoms. In case of contact with skin or eyes, flush with plenty of water; for eyes, get medical attention. Harmful if swallowed. Do not smoke while spraying.

Do not contaminate utensils, dishes, or drinking water. Do not apply to humans, pets, birds, or near fish bowls. Rinse empty container thoroughly with water and discard it.

Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.
