PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Harmful if absorbed through the skin. Avoid skin contact. Wear clean clothing. Avoid breathing dust. Wash after handling.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Get medical attention.

If in eyes or on skin: Flush with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, shrimp and crab. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Wrap securely and place in trash collection.
**BONIDE ROTENONE 5 ORGANIC INSECTICIDE, EPA REG. NO. 4-224**

**DIRECTIONS**

Follow spray schedule given below in kitchen tablespoons per gallon of water. Add water to powder and mix. May be applied with any hand or power sprayer. Spray plants or trees lightly but thoroughly; cover all parts of plant or tree, particularly undersides of leaves. Do not apply if rain is expected shortly after application.

Note: To control Colorado potato beetle on potatoes (New York state only), eggplants and tomatoes, follow local Agricultural Extension recommendations for a tank mix of 1 part Rotenone 5 with 2 parts 8 lb./gal. active ingredient emulsifiable piperonyl butoxide (.6 gal. of Rotenone 5 and 8 oz. P. B.). This provides .25 lbs. of Rotenone and .5 lbs. P. B./acre.
BONIDE ROTENONE 5 ORGANIC INSECTICIDE, EPA Reg. No. 4-224

PILE ANTS: For use in lawns, gardens, around buildings, agricultural land, golf courses, campgrounds, and recreational areas. Thoroughly mix 1 rounded tablespoon (0.5 oz.) in 2 gals. of water and saturate the mound and surrounding area to a 4 ft. diameter. Repeat in 7-10 days or as necessary. Treat new mounds as they appear. Application should be made as a gentle rain from a sprinkler can or using low pressure spray since pressurized sprays may disturb the ants causing migration and reducing product effectiveness.

Recommendations for use of this product are based on tests believed to be reliable. The buyer must assume all responsibility for use of this product when not used in strict accordance with directions or established safe practice, or when used under abnormal conditions not reasonably foreseeable to the seller.
