BONIDE ZECTRAN* 1E INSECTICIDE

An outstanding insecticide for the control of a wide range of pests, including snails and slugs on turf, shade trees, flowers and shrubs.

ACTIVE INGREDIENTS
 Methacarbaryl 4-(Dimethylamino)-2-methyl-2-butene-1-yl methylcarbamate 11%
 Aromatic petroleum derivative solvent 58.0%
 INERT INGREDIENTS 31.0%
 *Zectran is Trademark of The Dow Chemical Company.
 U.S. Patent No. 3,084,098
WARNING: KEEP OUT OF REACH OF CHILDREN
 (Read complete warnings on side panel)
DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME
ONE QUART NET

DIRECTIONS FOR USE

Apply ZECTRAN 1E in water sprays to ornamental plants and turf. Applications may be made with hand sprayers, hose attached sprayers or power spraying equipment. Use enough spray to wet the plants and turf areas thoroughly.

KILLS: Armyworms, cutworms, sod webworms, loopers, birch leaf miners, European pine shoot moth, tent caterpillars, red-pine sawfly, thrips, leafhoppers, white fly, mealy bugs, lygus and other plant bugs, aphids, scale and scale crawlers, mites, millipedes, sowbugs, snails and slugs.

FOLIAGE-FEEDING INSECTS AND MITES: Spray infested plants thoroughly at amounts indicated in the dosage table. Re-treat as necessary.

SNAILS, SLUGS AND TURF PESTS: Water turf thoroughly before treating. Spray infested area as indicated in the dosage table. Apply 1 gallon of spray per 130 to 180 sq. ft. of area. Soak the debris and soil under infested plants. Re-treat as necessary.

Note: Feeding stops soon after treatment, but complete kill may be delayed for two or three days.

WARNING: May be fatal if swallowed. Avoid eye and skin contact. Avoid breathing spray mists. Wash well after handling. If swallowed, call a physician immediately. Note to Physician: ZECTRAN 1E INSECTICIDE has cholinergic effects — treat symptomatically. Atropine is an antidote.

Avoid contamination of feed, foodstuffs, water supplies and fish ponds. Do not use on maidenhair fern, cape chestnut, or Geraldton wax flower. Excessive dosage may cause slight leaf injury to new growth on roses, phlox and petunias.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

This product is toxic to fish, birds, and other wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
