2 Wurz Ave.
Yorkville, NY 13495

Subject: Tobacco Dust -- Deleted Uses
EPA Registration No. 4-340
Your Amendment Dated June 25, 1991

Dear Mr. Wurz:

Your proposed deletion of food uses from the subject product's registration has been published in the Federal Register (Vol. 57, No. 83, April 29, 1992, page 18147), and the required 90-day publication period, during which comments may be received, has expired.

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comment below. A stamped copy of the labeling is enclosed for your records.

Delete the statement, "Repels dogs, cats and rabbits."
(This statement does not appear on your last EPA-accepted label.)

Note that you likely will be required, at the time of reregistration, to submit product performance data substantiating your label claim that the product may be helpful in repelling certain vertebrate pests. It is likely that you will either be required to delete the label statement, "May also be helpful in discouraging dogs, cats, and rabbits from entering lawns and gardens," or be required to provide complete label directions for use of the product as a vertebrate pest repellent.

Note also that you likely will be required, at the time of reregistration, to delete the term "ORGANIC" from the vicinity of the product name, and to delete the word "Naturally" from the statement, "Naturally controls many common insect pests on
