P.O. Box 1019  
Salem, VA 24153  

Subject: Label Notification(s) for Pesticide Registration Notice 2007-4

Dear Ms. Kuetemeier:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated August 4, 2011 for the following product(s):

- Eight Insect Control Vegetable Alternate Brand Names  
  Fruit & Flower Concentrate  
- Borer-Miner Killer Concentrate

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 98-10 and finds that the label change(s) requested falls within the scope of PRN 98-10. The label has been date-stamped "Notification" and will be placed in our records.

EPA Reg.'No. 4-408 Bonide® Eight Insect Control Concentrate

If you have any questions, please contact Linda A. DeLuise at 703-305-5428.

Sincerely,

Richard J. Gebken  
Product Manager (10)  
Insecticide Branch  
Registration Division (7504P)
Application for Pesticide - Section I

1. Company/Product Number
4-408

2. EPA Product Manager
Gebken

3. Proposed Classification
☐ None ☐ Restricted

PM# 10

5. Name and Address of Applicant (Include ZIP Code)
Bonide Products, Inc.
6301 Sutliff Road
Oriskany, NY 13424

☐ Check if this is a new address

4. Company/Product (Name)
Bonide Eight Insect Control Concentrate

6. Expedited Review. In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to:

EPA Reg. No. AUG 22 2011

Product Name

Section - II

☐ Amendment - Explain below.
☐ Resubmission in response to Agency letter dated
☐ Notification - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

NOTIFICATION: of additional brand names
NON-PRIA Action E-mail: sarahk@ntelos.net
Fax: 540-375-8827

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the Confidential Statement of Formula of this product. Bonide Products, Inc. understands that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA, and further understands that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and Bonide Products, Inc. may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Concentrate

[ALTERNATE BRAND NAMES: Bonide Eight Insect Control Vegetable, Fruit & Flower; Bonide Eight Insect Control Vegetable, Fruit & Flower Spray Concentrate; Bonide Borer Miner Killer Concentrate, Bonide Bug Beater II Yard & Garden Insect Control Concentrate, Bonide Termite & Carpenter Ant Killer, Bonide Carpenter Ant Control Concentrate; Eight Insect Control Vegetable, Fruit & Flower Concentrate; Borer-Miner Killer Concentrate]

- Mixes with water
- Water Based
- Will not Stain
- Contact and Residual Spray
- Kills troublesome outdoor insects which destroy Lawns, Roses, Flowers, Trees and Shrubs, Vegetables, Fruit, Nuts
- Contains permethrin, a long lasting insecticide which provides contact and residual control for up to 4 weeks of many hard-to-kill sucking and chewing insects.
- For Residential use only.
- KILLS OVER 100 DIFFERENT INSECTS
- Gives residual control & repellency.
- For use on dogs and puppies.
- Kills fleas & ticks up to 21 days.
- Use on roses, flowers, shrubs, fruits, vegetables, lawns and other outdoor areas.
- FOR USE ON LISTED: Vegetables, fruits, flowers, Houseplants, Roses, Nuts, Lawns, Trees, Shrubs, outside surfaces of buildings and surrounding areas.
- CONTROLS: Kills over 100 different named insects.
- Mix and Apply using hose-end, tank sprayer or water can at rates indicated

ACTIVE INGREDIENTS:
Permethrin (CAS No. 52645-53-1)................................. 2.5%

OTHER INGREDIENTS:........................................... 97.5%

100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

(See Side Panel for Additional Precautionary Statements and First Aid)

Net Contents: 8 FL. OZ. / 1 PT. / 1 QT.
READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or for other commercial use, or for commercial seed production or for research purposes.

Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
(1) Treatment to soil or vegetation around structures;
(2) Applications to lawns, turf, and other vegetation;
(3) Applications to building foundations, up to a maximum height of 3 feet.
Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.
Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

Step #1: For lawns and vegetables, measure the area to be sprayed. Calculate square feet by multiplying length by width. For all other applications, apply as a thorough cover spray.

Step #2: Use a clean sprayer. Carefully measure and mix the amount of concentrate and water as directed.

Step #3: Spray as directed. Thorough coverage is important. Flush sprayer with clean water after each use. Make applications when insects first appear. Repeat applications as directed. See directions for complete insect list.

People and pets should not be allowed in treated areas until spray had dried.

Use dilution rates as indicated.
1 fl. oz. = 6 tsp. or 2 Tbsp.
8 fl. oz. = ½ pt. or 1 cup
### DIRECTIONS FOR APPLYING

#### HOME LAWNS

<table>
<thead>
<tr>
<th>Pests: Ants, Armyworms, Brown dog ticks, Chinch bugs, Crickets, Cutworms, Fleas, Grasshoppers, Japanese beetle grubs, Mole crickets, Sod webworms, Ticks that may carry Lyme Disease, Leafhoppers</th>
<th>How to Use: Thoroughly wet down grass a few hours before applying. Home lawns should be no taller than 3 inches at time of application. Slightly more water may be used as long as the amount of product per area is as listed below. For heavy infestations, repeat application after 2 weeks. Do not exceed 16 applications per season. For ants, crickets and grasshoppers, use 2 fl. oz. in 3 gallons of water to cover 1,000 sq. ft. For other listed insects, use 6 fl. oz. in 10 gals. of water to cover 1,000 sq. ft.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bent, Bermuda, Bluegrass, Dichondra, Fescue, Irish Moss, Merion, St. Augustine</td>
<td></td>
</tr>
</tbody>
</table>
**FIRE ANT CONTROL**

**Individual Mound and Plant Container Treatment**

Mix 2 fl. oz. in 3 gals. water and apply as a drench using a sprinkler can. Gently apply 1 gallon of the mixture over the surface of each mound. Thoroughly wet mound and surrounding area of 3 x 4 ft. (12 sq. ft.) For best results apply in cool weather 65°F-80°F. early or late in the day. Treat new mounds as they appear. Pressurized sprays may disturb ants and cause migration which will reduce product effectiveness. **Use the same method as above for the control of Fire Ants that may nest in permanently placed containerized ornamentals plants.**

On Tent caterpillars, Application should be made when caterpillars are young and tents are first noticed. For best results, apply in the late afternoon or evening, when caterpillars have returned to their tents. Wet tents with spray on all sides. A few caterpillars may be seen escaping from the tent; however, they should die within several hours.

NUISANCE PESTS IN OUTDOOR AREAS

GENERAL DIRECTIONS
Use 6 2/3 fl. oz. in 1 quart of water, treating 400 linear feet with a 6-inch spray band.

OUTSIDE SURFACES OF BUILDING
Use Bonide Eight® Concentrate on Ants, Asian Ladybeetle [Asian ladybugs], Clover mites, Crickets, Earwigs, Locusts, Millipedes, Sowbugs (pillbugs) to help prevent infestation of buildings, treat the building foundation to a height of 2 to 3 feet, where pests are active and may find entrance. Also, apply as a spot or crack-and-crevice spray to outside surfaces of building, including porches, screens, window frames, eaves, patios, garages, refuse dumps and other areas where these pests congregate or have been seen. Repeat treatment as needed to maintain effectiveness. Do not exceed 24 applications per year.

OTHER OUTDOOR AREAS
Use Bonide Eight® Concentrate on Ants, Crickets, Earwigs, Fleas, Ticks (including ticks that may carry Lyme Disease) for treatment of localized infestations of these insects in areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat application as reinfections occur. Do not exceed 24 applications per year.
To reduce annoyance from: Cluster flies, Flying moths, Gnats, House flies, Mosquitoes. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, around shrubbery, and other places where these insects alight or congregate. Repeat as necessary. Do not exceed 24 applications per year.

WOOD-INFESTING INSECTS (including termites)

For Beetles (Furniture, Deathwatch, False Powderpost, Longhorned, Powderpost), Carpenter Ants (and other wood-infesting ants), Carpenter Bees and termites (including drywood termites): Treat outside of buildings, porches, wooden decks and patios, window frames, doorways, foundations, eaves, garages, garbage areas and other areas where you may find these pests.

Treat outside surfaces of buildings, porches, wooden decks and patios, wooden fences, window frames, doorways, foundations, eaves, garages, garbage areas and other areas where you may find these pests.

Mix 10 fl. oz. with 1 gal. of water to treat 100 sq. ft. Spray infested surfaces thoroughly to a height of 3 feet, avoiding dripping and runoff. Apply evenly on wood surfaces. To treat small areas, apply as a spot or crack-and-crevice treatment by brushing or spraying the diluted spray. For large areas, use a coarse, low pressure spray. Repeat treatment as needed to maintain effectiveness. Do not spray into electrical outlets or utilities.

Spray infested areas and areas likely to be infested, such as wood surfaces, voids and channels in damaged wood, spaces between wooden parts of structure, and between wood and foundations where infestation is likely to occur. Also spray around fence posts, wood piles (do not use on firewood) and tree stumps.

Suitable protective clothing should be worn in confined or overhead areas to prevent exposure to eyes and skin. The use of eye protection, protective head covering, chemical resistant gloves and footwear, a long-sleeved shirt and long pants or coveralls are recommended. Do not permit contact with treated surfaces until spray has dried. Treated confined areas, such as detached garages, under porches and decks, should be ventilated during and immediately following application before the areas are re-occupied.

For carpenter ants, spray around doors and windows and other places where ants may enter or crawl and hide. Also treat cracks and crevices or openings into wall voids or other areas where these ants may be present.

For carpenter bees, spray or inject into holes and tunnels already made by the bees with a tank sprayer, and spray areas where they are beginning to build tunnels into the wood.

For termites* (including drywood termites), treat as for other wood-infesting insects. This product will kill workers and winged reproductive forms of termites in the treated areas. Re-treat as needed to maintain effectiveness. Do not exceed 24 applications per year.

*USE OF THIS TYPE OF PRODUCT TO CONTROL TERMITES SHOULD NOT BE CONSIDERED A SUBSTITUTE FOR SOIL TREATMENT OF SUBTERRANEAN TERMITES DONE BY A PROFESSIONAL PEST CONTROL OPERATOR.
NUISANCE PESTS INDOORS

Kills Ants, Asian Ladybeetle, Bedbugs, Brown Dog Ticks, Cadelles, Carpenter Ants, Carpet Beetles, Centipedes, Cheese Mites, Clothes Moths, Clover Mites, Cockroaches, Confused Flour Beetles, Crickets, Drugstore Beetles, Earwigs, Firebrats, Fleas, Flying Moths, Gnats, Grain Mites, Granary Weevils, House flies, Lice and Louse Eggs, Lone Star Ticks, Meal Worms, Millipedes, Mosquitoes, Palmetto Bugs, Pillbugs, Rust Red Flour Beetles, Rice Weevils, Scorpions, Silverfish, Sowbugs, Spiders and Waterbugs. Follow all directions and precautions on the Bonide Eight Insect Garden & Home Ready to Use Pump Sprayer Bottle only. Add 1 fl. oz. of this concentrate to Bonide Eight Insect Garden & Home Ready-to-Use Pump Sprayer and dilute with 1 gallon of water. Apply cap tightly and shake well to mix.

For spot application only. Do not use as a space spray Indoors. Do not apply on or into electrical switch boxes, wiring or outlets. Do not allow children or pets on treated surfaces until spray has completely dried and area is ventilated. Do not use in commercial food handling establishments, restaurants or other areas where food is commercially prepared or processed or served. In the home all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

USE AS A SURFACE RESIDUAL SPRAY FOR CONTROL OF: ANTS, BEDBUGS, BROWN DOG TICKS, CADELLES, CARPENTER ANTS, CARPET BEETLES, CENTIPEDES, CHEESE MITES, CLOTHES MOTHS, CLOVER MITES, COCKROACHES, CONFUSED FLOUR BEETLES, CRICKETS, DRUGSTORE BEETLES, EARWIGS, FIREBRATS, FLEAS, FLYING MOTHS, GNATS, GRAIN MITES, GRANARY WEEVILS, HOUSE FLIES, LICE AND LOUSE EGGS, LONE STAR TICKS, MEAL WORMS, MILLIPEDES, MOSQUITOES, PALMETTO BUGS, PILLBUGS, RUST RED FLOUR BEETLES, RICE WEEVILS, SCORPIONS, SILVERFISH, SOWBUGS, SPIDERS AND WATERBUGS: Direct the spray into hiding places, cracks and crevices, and behind shelves and drawers. For Silverfish, spray bookcases. For Ants, spray trails, nests and points of entry. To reduce annoyance from Mosquitoes, Houseflies, Gnats and Flying Moths, apply every 2 weeks to the outside surfaces of screens, doors, window frames and outdoor light fixtures.

TO CONTROL CARPET BEETLES; Spray mist edges of carpeting and under carpeting and rugs. Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving. Repeat treatment as needed. Do not allow children or pets in treated areas until spray has dried.

TO CONTROL BEDBUGS; Spray mist mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints. Treat baseboards, moldings and floors. Repeat treatment as needed. Do not use sprayed areas until completely dry.

TO CONTROL FLEAS (ADULTS AND LARVAE) AND TICKS (ADULTS AND LARVAE); Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, moldings, window and door frames, and entire areas of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment. Repeat treatment as needed. Do not allow children or pets to access treated surfaces until completely dry.

TO CONTROL CLOTHES MOTHS; Remove any infested articles from storage, brush thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storages directing the spray into cracks, joints and crevices. After airing, infested articles may be treated lightly, keeping nozzle at least three feet from fabric to avoid staining.

TO KILL LICE AND LOUSE EGGS; Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying, then proceed to spray entire area to be treated. Spray from a distance of 3 to 10 inches. Treat only those garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all treated particles to dry thoroughly before use.

EPA Reg. No. 4-408
Aug. 20, 2009 – Notification
USE ON DOGS & PUPPIES

Read entire label before each use. Use only on dogs. This product must be diluted before use.

Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

TO KILL FLEAS, LICE, TICKS AND MANGE MITES: Dilute 2 3/4 ounces (5 1/2 tablespoons) of concentrate with 1 gallon of water. Dip animal into solution or sponge on solution, making sure hair is thoroughly wet to the skin. The area around the ears should be sponged thoroughly. Avoid contact of material with eyes and mouth of animal. Dipping should not exceed 30 seconds. Do not reapply product for seven days. Kills fleas and ticks up to 21 days. Do not use on puppies under twelve (12) weeks of age. Gives long lasting residual control and repellency for fleas and ticks on dogs.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage: Store and transport in an upright position. Store in original container in a cool, dry area away from heat or open flame.

Disposal: If empty – Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

If partly filled – Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If inhaled: Move person to fresh air.
If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
Call a poison control center or doctor for further treatment advice.

If on skin or clothing: Take off contaminated clothing.
Rinse skin immediately with plenty of water for 15-20 minutes.
Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes.
Remove contact lenses, if present, after the first five 5 minutes, then continue rinsing eye.
Call a poison control center or doctor for treatment advice.

If swallowed: Call poison control center or doctor immediately for treatment advice.
Have person sip a glass of water if able to swallow.
Do not induce vomiting unless told to do so by the poison control center or doctor.
Do not give anything by mouth to an unconscious person.
PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: May be harmful if swallowed or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards
This pesticide is extremely toxic to fish. Avoid contamination of ornamental fish ponds. Drift and runoff from treated areas may be hazardous to fish and aquatic organisms in adjacent waters. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively, visiting the treatment area.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
