SPOT TREATMENT

IMPORTED FIRE ANTS: Apply 2 tablespoons over each 8" to 10" diameter mound and up to 2 feet around to prevent escape of the queen. Immediately after application water the granules into the soil gently with a light sprinkling to avoid disturbing the colony. Use at least 1 gallon of water per mound, but no more than 2 gallons. Use of high pressure watering equipment may disturb the colony and cause migration of ants, thus reducing the effectiveness of the treatment. For maximum effectiveness, apply in cool weather (65-80°F), or early morning or late evening for best results. Treat new mounds as they appear.

ANTS NESTING OUTDOORS: This product may be used outdoor for the control of ants, including Acrobat, Argentine, Big Headed, Cornfield, Field, Harvester, Leafcutter, Little Black, Pavement and Pyramid Ants. If possible, it is best to try to locate nest and treat first. Nests will usually be found in the ground but may be concealed under stones, boards, and slabs or in stumps or logs. Product should be applied to thoroughly cover the nest (1 to 2 tablespoons) and sprinkled gently with sufficient water to dissolve granules. In addition to treating ants nest or mounds, entry points of building (used by ants) and the soil surface along the perimeter of the building should be treated.

BAND (PERIMETER) TREATMENT AROUND HOUSE FOUNDATION:

To help prevent infestation of building of Ticks, Crickets, Field Crickets, Spiders, Ants, Boxelder Bugs, Brown Dog Ticks, Centipedes, Cockroaches, Clover Mites, Fleas, Scorpions, Springtails (Collembola); treat a band 5 to 10 feet wide around and adjacent to the building where pests are active and may find entrance. Use the same dosage recommended for Ants nesting outdoors.

For information on this product call 1-800-255-3924

STORAGE AND DISPOSAL

STORAGE: Store product in its original container in cool, dry locked place out of reach of children. **DISPOSAL:** Completely empty and dispose off empty container in trash collection. Do not reuse empty container.

PIC FIRE ANT KILLER

PIC FIRE ANT KILLER
READ ENTIRE LABEL.

USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CAUTION - Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Food utensils such as spoons and measuring cups must not be used for purposes after use in measuring pesticides. Do not allow children or pets on treated areas until granules have been watered into the soil and the grass or soils is dry.

Environmental Hazards

This product is extremely toxic to fish and aquatic invertebrates (crabs, shrimp etc.). Do not apply directly to water. Use with care when applying in areas adjacent to any body of water. Do not contaminate water when disposing of equipment in wash water.

FIRST AID: If on skin: Wash with plenty of soap and water. Get medical attention.

If in Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If not breathing: Give artificial respiration, preferably mouth-mouth. Get medical attention.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with it's labeling.

Not for use in commercial greenhouses, nurseries, on sod farms or grass grown for seed.
