NOTIFICATION

FEB 24 2006

Subject: Label Amendment Updating First Aid Statements and Disposal in Accordance with PR Notices 2001-1 and 2001-6
Bonide Cyperactive®
EPA Reg. No. 4-427
Your Submission Dated August 22, 2003

Dear Ms. Horton:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable subject to the comments listed below. Two copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

- 1. Revise the "If Swallowed" First Aid statements as recommended in PR Notice 2001-1 for products containing more than 10% petroleum distillate:

Table with 2 columns: 'If swallowed:' and a list of instructions: 'Immediately call a poison control center or doctor.', 'Do not induce vomiting unless told to do so by a poison control center or doctor.', 'Do not give any liquid to the person.', 'Do not give anything by mouth to an unconscious person.'

- 2. Move the following statement from the Precautionary Statements ("Hazards to Humans and Domestic Animals") to the Directions for Use:

"Do not allow children or pets to contact treated surfaces until the spray has dried."

- 3. Revise the last sentence of the Environmental Hazards to read as shown below and move it to the Directions for Use:

"Care should be used when spraying to avoid fish and reptile pets by removing pets and covering fish tanks before spraying."

- 4. Revise the statement "NOT FOR USE IN USDA MEAT AND POULTRY PLANTS" to read: "NOT FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY PLANTS."
- 5. In the list of "Permitted Areas of Use" on page 3, change "aircraft" to "aircraft (cargo areas only)".
- 6. Change "of" to "if" after "IN HORSE STABLES" on page 3, so that it reads "not for application if horses will be used for food."
- 7. Revise or delete the statement "Repeat as necessary" (or "Repeat treatments as needed" or similar language) throughout the Directions for Use. We no longer accept such unqualified re-treatment statements and are asking registrants to either delete them or revise them to specify a re-treatment interval consistent with the supporting efficacy data and residual claims on the label.

If you have any questions regarding this action, please contact Susan Stanton of my team at (703) 305-5218.

Sincerely,
