Conditional

Name of Pesticide Product: **Bonide
Total Vegetation
Killer Conc.**

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

**Registrations By Design Inc.
118 1/2 E. main Street
Salem, VA 24153**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

a. Revise the EPA Registration Number to read, "EPA Reg. No.4-446".

Signature of Approving Official:

Date:

7-16-02

3. Change "Storage to Pesticide Storage".
 - . Store undiluted pesticide in original container
 - . Add "Do not store diluted pesticide solution".

4. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

MASTER LABEL

Total Vegetation Killer Concentrate

Optional Marketing Statements

- Kills grass & weeds
- Prevents plant growth for up to 1 year
- Covers _____ sq. ft.
- Kills the root
- For total vegetation control of weeds in noncrop areas

ACTIVE INGREDIENT:

Prometon (CAS No. 1610-18-0).....	2.2%
OTHER INGREDIENTS:.....	97.8%
TOTAL:	100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back/side/other panel(s) for first aid and additional precautionary statements.

by EPA Letter Dated

JUL 15 2002

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

4-446

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
If swallowed	Call a poison control center or doctor immediately for advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards

Do not contaminate water used for irrigation or domestic purposes. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Bonide® Total Vegetation Killer Concentrate is a nonselective herbicide product intended for use after dilution with water. It will kill almost all vegetation down to the roots and prevent plant regrowth for up to one year. Use around the home, business' or workplace for bare ground vegetation control (where no plant growth is desired) in driveways, sidewalks, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings and under graveled pathways.

When to Apply: For barren soil and to prevent plant growth, this product can be applied anytime. For best results, apply to bare ground or when growth is beginning in spring. If weeds are taller than 4 inches, cut weeds to 1 inch height. A second application may be necessary to control deep-rooted perennial weeds. In areas of heavy rainfall, repeat applications may be needed every 6 months.

How to Apply: Apply using a sprinkling can. Do not use a hose-end sprayer. If applying this product in remote locations and if possible drifting is not a concern, then a tank sprayer may be used. Although this product kills plant growth through contact with foliage, much of its activity is through the roots; therefore, optimal effectiveness is dependent on rainfall or watering to move it into the root zone. Very dry soil conditions may contribute to poor weed control. If the soil is dry, water lightly before treatment for best results. Apply directly to weeds and grass. Thoroughly wet weeds but do not soak, as runoff may occur. Two days following application, lightly water the treated area. This will aid in killing and preventing weeds through root absorption. To prevent growth of weeds under asphalt driveways, parking areas or tennis courts and play areas, apply to excavated areas and saturate soil before surface areas are finished. Mix only the quantity needed and use immediately; do not store diluted solution. When application is complete, triple rinse sprinkling can or sprayer and pour rinsate on treated area.

Dilution Table

Amt. of Product	Amt. of Water	To Cover
1 quart	1 gal. + 1 pt. (144 fl. oz.)	125 sq. ft.
40 fl. oz. (bonus size)	1 gal. + 52 fl. oz. (180 fl. oz.)	156 sq. ft.
½ gallon	2¼ gallons	250 sq. ft.
1 gallon	4½ gallons	500 sq. ft.
2 gallons	9 gallons	1000 sq. ft.

GENERAL USE RESTRICTIONS:

Keep children and pets off treated areas until these areas are dry. Do not use on lawns, flower beds or vegetable gardens. Use only in areas where complete control of all vegetation is desired. Do not apply over the root zones of desirable trees or shrubs. Do not apply in sloped areas where runoff may adversely affect desirable plants. To avoid damage to desirable plants, apply when it is not windy. Windy conditions may cause inadvertent drifting to desirable plants. Do not apply to decorative rock or bark groundcovers where the soil is covered with plastic fabric; runoff or leaching may result. In heavy clay soil locations, residual activity may exceed one year. Do not apply where plantings are planted. Do not apply closer than twice the distance from the trunk to the drip line. Do not apply next to a fence if desirable plants are growing on the other side or if future plantings are planned. Vertically cut through any roots adjacent to root zone of desirable plants.

STORAGE: Store and transport in an upright position. Store in a cool, dry area inaccessible to children or pets. Protect from freezing.
PESTICIDE DISPOSAL: *If empty* – Do not reuse this container. Place in trash or offer for recycling if available. *If partially filled* – Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

DISCLAIMER: Buyer assumes all risks of use, storage or handling not in strict accordance with directions given herewith.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents, call the National Pesticide Telecommunications Network at 1-800-858-7378.
