Subject: Label Amendment (alternate brand name, marketing statements, storage & disposal, disclaimer section, NPIC update)
Bonide Total Vegetation Killer Concentrate
EPA Reg. No. 4-446
Application Dated April 27, 2009 (submitted as notification)
Resubmission Dated February 1, 2010

Dear Ms. Russell:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

A stamped copy of your label is enclosed for your records. This label supercedes all previously accepted labels. You must submit one (1) copy of the final printed label before you release the product for shipment. Products shipped after eighteen (18) months from the date of this letter or the next printing of the label, whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA §6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Tompkins".

Total Vegetation Killer Concentrate

[Additional Brand Names: Total Vegetation Killer; Orchard™ Est. 1931 Vegetation Control Concentrate; Vegetation Control Concentrate]

Optional Marketing Statements

- Kills grass & weeds
- Prevents plant growth for up to 1 year
- Covers _____ sq. ft.
- Kills the root
- For total vegetation control of weeds in noncrop areas
- **SHAKE WELL BEFORE USING**
- Kills vegetation
- For use on driveways, brick walls, paths, patios, parking areas and play areas
- Prevents regrowth for up to 1 year
- Read and use according to applications directions

ACTIVE INGREDIENT:

Prometon (CAS No. 1610-18-0) 2.2%

OTHER INGREDIENTS:..... 97.8%

TOTAL:..... 100.0%

Keep Out Of Reach Of Children

CAUTION

(See back/side/other panel(s) (back booklet) for additional Precautionary Statements and First Aid)

NET CONTENTS 1 QT/40 FL OZ/1/2 GAL/1 GAL

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

If swallowed	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards

Do not contaminate water used for irrigation or domestic purposes. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Bonide® Total Vegetation Killer Concentrate is a nonselective herbicide product intended for use after dilution with water. [It will kill] [Kills:] almost all vegetation down to the roots and prevent plant regrowth for up to one year. [Use around the home, business or workplace for bare ground vegetation control (where no plant growth is desired) in] [For use on] driveways, sidewalks, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings and under graveled pathways.

When to Apply: For barren soil and to prevent plant growth, this product can be applied anytime. For best results, apply to bare ground or when growth is beginning in spring. If weeds are taller than 4 inches, cut weeds to 1 inch height. A second application may be necessary to control deep-rooted perennial weeds. In areas of heavy rainfall, repeat applications may be needed every 6 months.

How to Apply: **SHAKE WELL BEFORE USING.** Apply using a sprinkling can. Do not use a hose-end sprayer. If applying this product in remote locations and if possible drifting is not a concern, then a tank sprayer may be used. Although this product kills plant growth through contact with foliage, much of its activity is through the roots; therefore, optimal effectiveness is dependent on rainfall or watering to move it into the root zone. Very dry soil conditions may contribute to poor weed control. If the soil is dry, water lightly before treatment for best results. Apply directly to weeds and grass. Thoroughly wet weeds but do not soak, as runoff may occur. Two days following application, lightly water the treated area. This will

5/5

aid in killing and preventing weeds through root absorption. To prevent growth of weeds under asphalt driveways, parking areas or tennis courts and play areas, apply to excavated areas and saturate soil before surface areas are finished. Mix only the quantity needed and use immediately; do not store diluted solution. When application is complete, triple rinse sprinkling can or sprayer and pour rinsate on treated area.

Dilution Table

Amt. of Product	Amt. of Water	To Cover
1 quart	1 gal. + 1 pt. (144 fl. oz.)	125 sq. ft.
40 fl. oz. (bonus size)	1 gal. + 52 fl. oz. (180 fl. oz.)	156 sq. ft.
½ gallon	2 ¼ gallons	250 sq. ft.
1 gallon	4 ½ gallons	500 sq. ft.
2 gallons	9 gallons	1000 sq. ft.

USE RESTRICTIONS:

Keep children and pets off treated areas until these areas are dry. Do not use on lawns, flower beds or vegetable gardens. Use only in areas where complete control of all vegetation is desired. Do not apply over the root zones of desirable trees or shrubs. Do not apply in sloped areas where runoff may adversely affect desirable plants. To avoid damage to desirable plants, apply when it is not windy. Windy conditions may cause inadvertent drifting to desirable plants. Do not apply to decorative rock or bark groundcovers where the soil is covered with plastic fabric; runoff or leaching may result. In heavy clay soil locations, residual activity may exceed one year. Do not apply where plantings are planted. Do not apply closer than twice the distance from the trunk to the drip line. Do not apply next to a fence if desirable plants are growing on the other side or if future plantings are planned. Vertically cut through any roots adjacent to root zone of desirable plants.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store and transport in an upright position. Store in a cool, dry area inaccessible to children or pets. Protect from freezing. Store undiluted pesticide in original container. Do not store diluted pesticide solution.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. *If empty* - Place in trash or offer for recycling if available. *If partly filled* - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DISCLAIMER: To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling not in strict accordance with directions given herewith.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
