BONIDE BORIC ACID ROACH POWDER KILL WILL ALSO CONTROL INFESTATIONS OF SILVERFISH, ANTS, PALMETTOS, WATER BUGS.

Keep powder dry. If it gets wet, remove and re-apply to guard against future infestations. Any powder visible after applications must be brushed into cracks and crevices or removed. Apply only in areas inaccessible to children and pets. Do not use in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and feedstuffs.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed or inhaled. Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water before smoking or eating after handling. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL CHEMTREC AT: 1-800-424-9300

If Inhaled:	Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Take off contaminated clothing.
If on Skin or Clothing:	Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. Take off contaminated clothing.
If in Eyes:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.
If Swallowed:	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-272-1222 for emergency medical treatment information.

TRUSTED SINCE 1926

• Kills roaches, ants, palmetto bugs, silverfish & waterbugs

• **ODORLESS • NON STAINING**

• **Roaches carry back to the nest**

ACTIVE INGREDIENTS:
Orthoboric Acid..... 98.00%
INERT INGREDIENTS:..... 2.00%
TOTAL:..... 100.00%

EPA EST. NO. 4-NY-1 EPA REG. NO. 4-460

KEEP OUT OF REACH OF CHILDREN CAUTION

(See Back Panel for Additional Precautionary Statements)

Net Wt. 1 lb. (454 Grams)

Bonide Boric Acid Roach Powder

EPA Reg. No. 4-460

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Shake bottle. Lift spout, squeeze bottle to spray under appliances, sink, burners around drains, along all sides of closet shelves, under shelf paper on ledges, wherever roaches develop paths. Be sure to treat basements, attics and garages.

2. Tap a line of powder by holding bottle horizontally and gently tapping against surface to be treated. Put one line of powder in every drawer, around sides and backs of all cabinets and storage shelves, in cracks and crevices behind sinks and tubs. Also put behind all other furniture and particularly in the drawers. One pound normally treats an average home of 2,000 square feet. New construction treatment in wall requires one pound for every 600 square feet.

STORAGE AND DISPOSAL	
STORAGE:	Store only in original container in a cool dry place inaccessible to children and pets and away from feed and feedstuffs.
DISPOSAL:	Do not reuse this container. Place in trash or other final disposal unit available.
<i>If empty</i>	Call your local solid waste agency or call CHEMTREC at 1-800-424-9300 for disposal instructions. Never clean or reuse product down any drain or outflow drain.
<i>If partly filled</i>	

For best results, Bonide Boric Acid Roach Powder should be used in every room of a building and applied in every place indicated.

HOW DOES BONIDE BORIC ACID ROACH POWDER WORK?
Since Bonide Boric Acid Roach Powder is non repellent roaches do not avoid it. When they get near it, the electro static charged powder clings and is carried back to their nests.

RE: Bonide Roach Powder with Boric Acid
EPA Reg. No. 4-460
Notification – Optional language to marketing statements

To Whom It May Concern

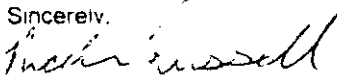

Enclosed, please find a completed form 8570-1 Notification and the latest final printed label for the above mentioned registration. Optional language is highlighted in yellow. Please note that this is Bonide's first printed label for this registration. This registration was transferred to Bonide from Dragon and approved by the Agency (Kathryn Bouve) on March 23, 2005. I trust you will find everything in order for approval.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46 and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

I have enclosed four copies of the final printed label. Please stamp one copy and return for our records in the self-address envelope I have enclosed for your convenience.

Should you have any questions or require additional information, please do not hesitate to contact me at (315) 736-8231 extension 230 or by e-mail at NicoleR@bonide.com.

Sincerely,

Nicole Russell
Registration Specialist
