Term of Issuance: Conditional

Name of Pesticide Product: Bonide Wasp, Hornet & Yellow Jacket Killer

NOTICE OF PESTICIDE:
[X] Registration
[] Reregistration

(Under FIFRA as amended)

Name and Address of Registrant (include ZIP Code):
Bonide Products, Inc.
6301 Sutiff Road
Oriskany, NY 13424

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:

- 1. You will submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. You will make the following label changes before you release the product for shipment:
a. Revise the EPA Registration Number to read "EPA Registration Number 4-475."

Signature of Approving Official:

Linda A De Lencastre for Richard Gebken

Date:

July 29, 2009

EPA Reg. No. 4-475

b. Under Hazards to Humans & Domestic Animals change "Remove and wash... before reuse." to "Wear long-sleeved shirt and long pants, socks, shoes and gloves."

c. Delete "No Unpleasant Odor." This claim is subjective.

d. Delete "Will Not "Burn" Shrubbery Or Trees", "Prevents Nesting", "Kills the entire nest" and "Kills on contact". No data was cited or submitted to support these claims.

e. You must submit a valid Enforcement Analytical Method (830.1800) to the Agency.

ACUTE TOXICITY REVIEW

STUDY	CATEGORY	CLASSIFICATION
Acute Oral	IV	Cited
Acute Dermal	IV	Cited
Acute Inhalation	IV	Cited
Eye Irritation	III	Cited
Dermal Irritation	III	Cited
Dermal Sensitization	Negative	Cited

A copy of the review is enclosed.

3. You must generate a one-year storage stability and corrosion characteristics (830.6317) data on the proposed product. The study must be conducted at 3, 6, 9 and 12 month intervals. The results must be submitted to the Agency in electronic and hard copy format.

4. Please submit two (2) copies of your final printed labeling before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Linda A. DeLuise of my team at (703) 305-5428.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water.

Physical and Chemical Hazards

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not spray in or around electrical equipment to safeguard against possible shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Read Entire Label.

HELPFUL TIPS:

For best results, use this product early in the morning or at dusk when insects are less active.

Spray at a safe distance from the nest and do not stand directly underneath it.

Aim the can away from you while spraying.

If it is breezy, spray with the wind at your back to avoid the spray drifting in your direction.

To kill the entire nest, spray until it is soaked. Wait at least 24 hours before removing the nest.

TO KILL Wasps, Hornets, Mud Daubers, Yellow Jackets and Bees [including Carpenter Bees] under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, directly spray insects for about 1-2 seconds.

This product may also be used indoors, in areas such as attics or crawl spaces where insects build nests. Whenever used indoors, follow directions for use carefully. Once nest is treated, leave the area quickly and close door behind you. Do not re-enter area for at least 24 hours to ensure all insects are killed.

5/5

Specific Instructions

TO KILL Wasps: Treatments should be made at dusk or early morning when insects are least active. Shake can and hold upright, pointing valve toward nest with wind at back.

TO KILL Hornets: Hornets make their nests in trees and shrubs and under eaves. Do not treat hornet's nests unless you can clearly see the entrance hole at the base. Wait until dusk or early morning when wasps are at rest. Direct spray into entrance hole and continue to spray into nest as wasps fall out until can is empty or no more wasps are seen. Leave area quickly.

TO KILL Yellow Jackets: Yellow jackets make their nests in tree stumps, walls, railroad ties or similar structures. Watch for wasp activity during the day to locate nest location. Treat at dusk or early morning when insects are at rest. Empty entire contents of can into nest hole from close range to ensure product enters entrance hole and leave area immediately.

TO KILL Bees (including Carpenter Bees): Spray around points where insects enter such as outside plumbing, faucets, cracks or crevices in foundation, under eaves, and along sills and ledges.

TO KILL Mud Daubers: Treatments should be made at dusk or early morning when insects are least active. Shake can and hold upright, pointing valve toward nest with wind at back. Spray directly on insects and their nests.

To Tent Caterpillars: Make applications when caterpillars are young and tents are first noticed (usually late spring). For best results, apply in the late afternoon or evening when caterpillars have returned to their tents. Aim spray directly at tents, and totally saturate on all sides.

TO KILL Gypsy Moth Caterpillars: Make applications when caterpillars are young and first noticed (usually late spring). Spray plants evenly to the point of run-off, applying to both sides of leaves and other areas of plants where insects are suspected. For dense evergreens and shrubs, be sure spray reaches interior leaves and branches.

Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly.

NOTE: This product is non-staining to most building siding depending on age and condition. Before using in areas where this product may contact siding, test in an inconspicuous area, then check back in a few hours.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Do not store near heat or open flame. Store in a cool dry area away from children.

Disposal: Do Not Puncture or Incinerate! *If empty:* Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency [or 1-877-315-9819] for disposal instructions.

To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
