**U.S. ENVIRONMENTAL PROTECTION
AGENCY**
Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:
4-480

Date of Issuance:

DEC 29 2009

NOTICE OF PESTICIDE:
 Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance: conditional

Name of Pesticide Product:
Bonide M/Max Lawn Granules

Name and Address of Registrant (include ZIP Code):
 Bonide Products, Inc.
 6301 Sutliff Road
 Oriskany, NY 13424

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration review of your product when the Agency requires all registrants of similar products to submit data; and submit acceptable responses required for reregistration of your products under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the "Precautionary Statements" to read: "Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse."
3. Revised the order of the "First Aid" statements are so they are listed as follows: "If in eyes", "If swallowed", "If on skin", and "If inhaled".

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. Do not get in eyes, on skin or clothing. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing dust. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating or smoking. Do not allow persons or pets in treated areas until granules have been watered in and treated area is dry.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. To protect the environment, do not allow granules to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For residential use only. Not for use indoors.

IRON WILL STAIN. Use this product on lawns and around flowers and ornamental shrubs. Keep this product off surfaces such as sidewalks, patios, wooden decks, driveways and clothing. Sweep concrete surfaces immediately to prevent staining. If concrete is wet when contact occurs, staining may be impossible to prevent.

RATE OF APPLICATION

For normal infestations of moss, apply this product at the rate of 4 pounds per 1,000 sq.ft. A 20 lb. bag will cover 5,000 sq.ft. For heavy infestations of moss, apply at the rate of 8 pounds per 1,000 sq.ft. A 20 lb. bag will cover 2,500 sq.ft.

Lawn moss thrives in damp, shady areas where the soil is acidic and drainage may be poor. If steps are not taken, moss can spread and take over a lawn. MMax Lawn Granules will quickly kill lawn moss, giving your lawn grass the opportunity to fill in and reclaim the lawn.

For best results, apply this product when the lawn is moist. Mow before application, to better expose existing moss and water in to activate the product.

[Claim for formula containing no N-P-K fertilizer:] You can now enjoy a beautiful moss free lawn with no excess growth & less mowing.

As A Spot Treatment In LAWNS and around Ornamental Shrubs and Flowers:

Apply anytime moss is actively growing and soil is moist. Sprinkle granules over the mossy area. Immediately after application, water-in. Wait several days until the moss turns black and dies, then gently rake it out.

IMPORTANT: This product can burn delicate foliage if applied directly to flowers and ornamental shrubs. If contact does occur, use a garden hose to wash the product off of the plants immediately.

SPREADER SETTINGS (Insert standard spreader setting chart)

GUARANTEED ANALYSIS *[example]:*

- Total Nitrogen (N) 20%
- Soluble Potash (K₂O) 5%
- Iron (Fe) 7%

Derived from ammonium sulfate, urea, muriate of potash, ferrous sulfate.
