

MINT-O-PHENE DISINFECTANT

COEFFICIENT 5 A.O.A.C.

Active Ingredients:

Isopropyl Alcohol
Vegetable Oil Soap
o-benzyl-p-chlorophenol
Methyl Salicylate
Essential Oils

Inert Ingredients 67%

Water

Caution: Harmful if Swallowed!

In making emulsions of Mint-O-Phene Disinfectant always add the water to the Disinfectant. If possible the water should be above 98° F.

NOTE: Be sure all dirt is swept up and removed before applying disinfectant, and that disinfectant solution covers all infected surfaces. For aid as ordinary disinfectant against S. Typhosa. wash the infected area with a solution of 1 to 100.

USDA REG. NO. 5-13

CAUTION: KEEP OUT OF REACH OF CHILDREN

NET CONTENTS

DIRECTIONS

URINALS AND TOILETS—Should be cleaned daily with a solution of 1/2 pt. disinfectant to 10 qts. of water. When finished pour the solution down drains to thoroughly clean and deodorize them.

PUBLIC PLACES—Wash thoroughly with a solution of 1-100, so as to cover all possible areas of infection. For use in schools, institutions, public buildings, colleges, etc.

OUTDOOR RECEPTACLES—Garbage pails: Wash with a 1-100 solution.

STABLES—Use a 1-100 solution. Be sure dirt is all removed and then spray entire infected area.

CLOSET BOWLS, TOILET BOWLS—Clean and flush the bowl each day with a solu-

tion 1-100. This solution should also be used to wash the seat.

CUSPIDORS—Clean with a 1-100 solution and leave a little in the receptacle to disinfect and deodorize.

CHICKEN COOPS, SLAUGHTER HOUSES—Clean and thoroughly wash with a 1-100 solution, coops, vats, floors, etc. Pour down drain to deodorize.

FOR CLEANING AND DEODORIZING
CLEANING—Dilute 1 part disinfectant to 100 parts of water. Wash floors and use for deodorizing sinks, refrigerators, etc.

DEODORIZER—Add 2 ounces to regular scrubbing solution, use for floors, sinks, woodwork, etc.
