# 5% SEVIN\* DUST

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS; AND IN CONFORMITY WITH FEDERAL AND STATE REGULATIONS.

#### GENERAL INFORMATION

DRAGON 5% SEVIN DUST controls a wide range of insect pests. At first signs of insect infestation, preferably before damage from feeding occurs, apply thoroughly to upper and lower leaf surfaces. If needed, repeat applications every 7-10 days. DO NOT use with lime or other alkaline material. May be applied up to harvest except where noted.

### DIRECTIONS

BEANS—For control of Mexican bean beetles, leafhoppers, flea beetles, apply approximately ½ lb. 41000 sq. ft. DO NOT feed treated bean vines to dairy or meat animals

LETTUCE—For control of lygus and stink bugs, apply approximately 1 tb./ 1000 sq. ft. DO NOT apply to head lettuce within 3 days of harvest or within 14 days to leaf lettuce.

CORN—Use approximately ¾ tb./1000 sq. ft. for corn earworm, fall armyworm, flea beetles. Japanese Beetles, Sap beetles, leafhoppers and European corn borer. For corn borer and larvae in whorls (budworm damage) and for foliage feeders, make one or more applications to entire plant beginning when borer damage threatens depending on the extent of infestation and the degree of protection desired. Consult your state agricultural experiment station for proper timing of treatments. For home or small garden use, apply thoroughly into the whorls when plants are about knee high. Repeat at weekly at 2 to 3 day intervals starting when first silks appear and continuing until silks begin to dry. Three or more applications may be required depending to severity of infestation. Repaply immediately after rain. Allow 7 days before narvest or grazing of forage. Application of this product to the tasset region of corn during the pollen shed period will seriously reduce bee populations POTATOES, TOMATOES, EGGPLANT AND PEPPERS—For control of

POTATOES, TOMATOES, EGGPLANT AND PEPPERS—For control of Colorado potato beetles, leafhoppers, and flea beetles, apply approximately be lb./1000 sq. ft. For control of tomato fruitworm, fall armyworm, ton so hornworm, European corn borer, stink bug and lygus bugs, apply approximately 4/lb./1000 sq. ft.

CUCUMBERS, SUMMER SQUASH—For control of pickleworm, melonworm, cucumber beetles, squash bugs, flea beetles, apply approximately ½ to / 1000 sq. ft.

GRAPES—For control of leafhoppers, Japanese beetle, grape berry moth, apply approximately 1 lb./1000 sq. ft.

STRAWBERRIES—For control of meadow spittlebug, leaf roller, apply approximately 1 lb./1000 sq. ft. DO NOT apply within 1 day of harvest.

ROSES, AZALEAS, SHADE TREES AND OTHER ORNAMENTALS—For

ROSES, AZALEAS, SHADE THEES AND OTHER ORNAMENTALS—For control of Japanese beetles, periodical cicada, aphid, tent caterpillars, lace bugs, boxwood leaf miner, apply approximately 1-1¼ lbs./1000 sq. ft. Injury to tender foliage may occur if plants are wet when dusted or in the presence of high humidity. DO NOT use on Boston lty.

ATTALLS, DOGS, CATS—For control of tleas and brown dog ticks, apply liberally and rub into skin, feet and legs. Dust sleeping quarters and infested areas weekly. DO NOT treat kittens or puppies under 4 weeks old. DO NOT apply to stringly increathan once weekly.
