DRAGON DIPEL® WETTABLE

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DRAGON DIPEL® WETTABLE, unlike chemical insecticides, can be used anytime caterpillars (leaf-eating worms) appear in trees or vegetables. Pets and family can return to the yard or garden immediately after spraying. Vegetables may be picked and consumed anytime after spraying. The active ingredient, *Bacillus thuringiensis*, has been commercially proven to selectively affect only leaf-eating caterpillars, nothing else. Lady beetles, earthworms, honey bees, and other beneficial insects are not harmed, so spray coverage can be complete, without worry.

DRAGON DIPEL® WETTABLE is easy to mix and apply with regular sprayers. Place half the required amount of water in tank or jar, add recommended amount of DRAGON DIPEL® WETTABLE, shake or stir, add balance of water and mix. Do not store diluted spray more than 12 hours.

Since DRAGON DIPEL® WETTABLE works only in a caterpillar's stomach, a small amount of treated leaf must be eaten to provide a lethal dose. Complete spray coverage of both sides of foliage is necessary. After biting treated portion of leaf, caterpillars stop feeding within a few hours. Death follows in a few days.

Apply when caterpillars (or their damage) first appear. Re-treatment at 7 to 10 day intervals may be required, especially as egg hatch may occur over an extended period of time. Use of the higher number of recommended tablespoons per gallon of spray provides a longer period of control.

RECOMMENDED APPLICATIONS RATES

TBSPTS: PER GAL. OF SPRAY	
Ornamental & Shade Trees (to 25 feet)	
Gypsy Moth Larvae*, Bagworm	2-4
Spring and Fall Cankerworms (Inchworms), Fall Webworm	2
Tent Caterpillar, Red-humped Caterpillar (California only)	1-2
Elm Spanworm	4
FLOWERS (Mums)	
Cabbage Looper	2-4
VEGETABLES** Lettuce, Broccoli, Cabbage, Cauliflower, Collards, Kale, Spinach, Mustard and Turnip Greens	
Cabbage Looper (Green Worm)	2-4
Imported Cabbageworm	1-2
Diamondback Moth	1-2

TBSPTS: PER GAL. OF SPRAY	
Beans, Cucumbers, Melons, Potatoes	
Cabbage Looper	2-4
Tomatoes	
Tomato Hornworm	1-2
Tomato Fruitworm*** (Corn Earworm)	4
Cabbage Looper	2-4
Celery	
Cabbage Looper, Celery Looper	2-4
Grapes	
Grape Leaf Folder	2-4
* For best control of Gypsy Moth, apply when caterpillars are small. Repeat treatment if necessary.	
** DRAGON DIPEL® WETTABLE may be applied up to the day of harvest.	
*** For the best results apply every 5-7 days.	

STORAGE AND DISPOSAL

Store in a dry place. Do not reuse empty container. Wrap container and put in trash collection.

NOTICE

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with DIRECTIONS and CAUTIONS stated on this label.
