Ms. Sandra J. Hurst
Regulatory & Graphics Coordinator
Dragon Corporation
P.O. Box 7331
Roanoke, VA 24019

Dear Ms. Hurst:

Subject: DRAGON Wettable or Dusting Garden Sulfur
EPA Reg. No. 16-136
Application for Pesticide Amendment of 03/05/91
Resubmission of 11/26/91

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) is acceptable provided you make the labeling changes listed below you release the product for shipment bearing the amended labeling:

1. The EPA Reg. No. 16-139 is on the label copies submitted under your cover letter of 11/26/91 which refers to EPA Reg. No. 16-136. Please correct the EPA Reg. No.
2. Change becaned to two words.
3. Separate the lot numbers from the EPA Est. No.
4. A 24-hour reentry interval statement requirement was waived for all registered homeowner plant pest and disease control uses of sulfur products in the 12/18/91 Agency response to the AD HOC Coalition of Sulfur Registrants request for waiver of product specific data requirements. This includes home and garden uses on your label. Therefore, the 24-hour reentry statement on your label is optional since your product is named a garden sulfur and if only used in home and garden plantings. However, if your product is marketed for agricultural uses such as apple or peach orchards and ornamental plant nurseries, the following 24-hour reentry label statements are required:

"Do not enter into treated area until at least 24 hours after the completion of application to the area unless wearing the protective clothing listed below. During early entry into

296
treated areas (less than 24 hours after the completion of application) to perform hand labor tasks, wear long pants (or coveralls), long sleeved shirt, shoes, socks, chemical/water resistant gloves, goggles or face shield."

"Pesticide Handlers: During mixing, loading and application of this product, wear long pants (or coveralls) long sleeved shirt, shoes, socks, chemical/water resistant gloves and goggles or face shield."

Submit five copies of your final printed label.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

5
Susan T. Lewis

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **NOTICE:** Do not use within 4 weeks of an oil spray or when temperature is above 90° F, as injury to foliage may occur. Sulphur may cause injury to open blooms. Do not apply to cucumbers, melons, or squash. Sulphur may cause injury to certain apple and bean varieties, pears and concord and other labrusca type grapes. **Do not re-enter area within 24 hours of application.**

AS A DUST—Dust lightly to both upper and undersides of leaves avoiding dusting of open blooms. Do not apply heavily as burning may occur.

AS A SPRAY—Mix 2 1/2 level tablespoons in a small amount of water, stirring until a thin paste is formed, then add water to make 1 gallon of mixture. Stir thoroughly and agitate occasionally while spraying. Do not store diluted spray. Make new dilution for each use.

VEGETABLES—**BEANS, PEAS:** Powdery Mildew, Rust (on beans). Dust or spray every 7 to 10 days during growing season. Sulphur may injure certain varieties of beans. Check plant tolerance prior to use. **TOMATOES:** Russet Mite. To clean up early infestations, dust or spray when fruit begins to set. Repeat treatments as necessary. Do not apply sulphur to tomatoes within 40 days of harvest if they are to be canned in metal containers. For Red Spiders on tomatoes, dust or spray when pests appear. Repeat as necessary.

FLOWERS AND ORNAMENTALS—**ASTER, AZALEA, CALENDULA, CHRYSANTHEMUM, CREPE-MYRTLE, DOGWOOD, DAHLIA, DELPHINIUM, LIGUSTRUM, LILAC, MAPLE, PHLOX, RHODODENDRON, ROSE, SNAPDRAGON & ZINNIA:** Powdery Mildew. Dust or spray at 7-10 day intervals. For Black Spot on **ROSES**, dust or spray at 7-10 day intervals. **ARBORVITAE, CARNATION, CEDARS, CHRYSANTHEMUM, CLEMATIS, HYDRANGEA, ROSE, SNAPDRAGON & SWEETPEAS:** Red Spiders. Dust or spray at 5-7 day intervals.

FRUIT TREES AND GRAPES—**CHERRIES, PEACHES, PLUMS, PRUNES:** Brown Rot. Spray or dust just before fruit starts to ripen. **APPLES, PEARS:** Scab. Spray when buds begin to swell and at 10 day intervals until 2 weeks after petal fall. During wet weather, make additional treatments. Sulphur may injure certain apple varieties. Check plant tolerance prior to use. Do not apply to pears after fruit begins to turn down. **GRAPES:** Powdery Mildew. Dust or spray when buds begin to break and at intervals of 2 weeks for at least 4 applications (6 treatments may be necessary). Do not apply to Concord or other sulphur-sensitive grape varieties.
