

- QUICKLY REMOVES RUST, LIME AND URIC ACID STAINS.
- ELIMINATES OFFENSIVE ODORS.
- DESTROYS MANY DANGEROUS BACTERIA.
- WILL NOT HARM BACTERIA ACTION OF SEPTIC TANKS.

HOW TO USE SPIFFY

1. Holding bottle over toilet bowl, apply 1 oz. of Spiffy to suitable mop or brush, or pour directly around sides of bowl.
2. Clean entire toilet bowl, especially under rim at water outlets. Flush. Note: For best results, use absorbent bowl mop, rather than brush, allowing product's application FULL STRENGTH to soiled areas.

TO DISINFECT: Remove water from bowl by forcing over trap with mop before cleaning. This procedure is also suggested for cleaning in extremely hard water areas.

WARNING: Corrosive. Keep Out of Reach of Children. May be fatal if swallowed. Do not breathe vapor or fumes. May produce chemical burns. Do not get in eyes, on skin or on clothing.

ANTIDOTE: INTERNAL — Drink a teaspoonful or more of magnesia, chalk, or small pieces of soap, softened with water in milk or raw egg white. In case of ingestion or injury, get medical attention. EXTERNAL — Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

Do not use on sinks, bath tubs or other porcelain enameled surfaces. Use of Spiffy on other than vitreous ware is done at user's risk. Do not use with chlorine or other chemicals.
