REGISTERED UNDER NO. 52-108-AA  
TO ALL REGISTERED STATES

# bug·a·bye®

N.Y.C.F.D.C. of A. No. 3487

## DIRECTIONS FOR USE

For flying insects, spray 5 to 6 seconds in an average room (10' x 10' x 10'). Spray upward using a circular motion. Keep windows and doors closed for at least 10 to 15 minutes after spraying. Do not remain in treated areas. Ventilate area after treatment is completed. For wasps and hornets—double dosage. It is unnecessary to hit flying insects directly—airborne mist remains suspended and will kill insects as they fly through it.

For crawling insects, such as roaches, silverfish and spiders spray directly on insects where possible. Spray into cracks

crevices, baseboards, behind sinks and refrigerators, etc. Insects should be wetted with the spray. Repeat whenever insects are seen.

For bedbugs, dismantle beds and spray springs, frame, headboards, seams and tufts of mattresses. Repeat application as often as necessary.

For ants, spray trails. Repeat application as often as necessary.

Keep spray nozzle at least 3 feet from objects or surfaces when spraying.

Do not spray on vegetation, or rubber or asphalt tile.

### ACTIVE INGREDIENTS:

Petroleum Distillates	14.00%
Piperonyl Butoxide, Technical	0.50%
Pyrethrins	0.40%

### INERT INGREDIENTS:

	85.10%
Equivalent to 0.4% of (Butylcarbityl)-6-Propylpiperonyl Ether and 0.10% of related compounds.	100.00%

Remove fish bowls, pets, etc., before spraying. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator.
