EATON'S™ & BAIT BLOCKS™ are Registered Trademarks of J. T. Eaton & Co., Inc.

No Prebaiting Required — Just

INSTRUCTIONS FOR

SPECIAL FORMULA: EATON'S® All-Weather BAIT BLOCKS contains selected inert ingredients and 2 anti-cancer ready-to-use palatable rodenticide that is lethal over a period of several days.

SUGGESTED USE: For use in wet or damp areas. Scatter Weather BAIT BLOCKS® Rodenticide into the holes and place into protected areas where rats are known to live.

FOR NORWAY & ROOF RATS: Place 2 to 8 sq. in. of bait in each infested area.

KEEP TREATED AREAS WELL SUPPLIED: Continuous applications should give control. EATON'S® All-Weather BAIT BLOCKS should be available to rodents until control is noticed. Never allow the treated areas to remain empty.

CAUTION: EATON'S® All-Weather BAIT BLOCKS should be placed only in locations inaccessible to children, pets, domestic animals or in tamper-proof bait boxes. If spilled, clean up immediately. Treat as for overdose of DICUMAFOSFATE out of lakes, streams, or ponds. Do not contact with food or equipment, or disposal of wastes. Apply this bait only as directed on this label.

ACTIVE INGREDIENTS:

Diphacinone [2-(diphenylacetyl)-1,3-indanone]
 Diphacinone, Sodium Salt [2-(diphenylacetyl)-1,3-indanone, sodium salt]

INERT INGREDIENTS:

NET WEIGHT 10 LBS. EPA EST. NO. 56-OH-1

DO NOT REUSE CONTAINER — DESTROY

This Package Is Not to be Broken for Reuse

Manufactured and Guaranteed by

EATON'S® & BAIT BLOCKS® are Registered Trademarks of J. T. Eaton & Co., Inc.

No Prebaiting Required — Just Use as Directed

INSTRUCTIONS FOR USE:

SPECIAL FORMULA: EATON'S® All-Weather BAIT BLOCKS® Rodenticide contains selected inert ingredients and 2 anti-coagulants blended into a ready-to-use palatable rodenticide that is lethal to rats when consumed over a period of several days.

SUGGESTED USE: For use in wet or damp areas, snap off EATON'S® All-Weather BAIT BLOCKS® Rodenticide into the handy marked squares and place into protected areas where rats are known to feed, water or exist.

FOR NORWAY & ROOF RATS: Place 2 to 8 squares (1/4 to 1 pound) in each infested area.

KEEP TREATED AREAS WELL SUPPLIED: Continuous feeding from 10 to 15 days should give control. EATON'S® All-Weather BAIT BLOCKS® Rodenticide should be available to rodents until complete lack of feeding is noticed. Never allow the treated areas to remain empty over 48 hours.

CAUTION: EATON'S® All-Weather BAIT BLOCKS® Rodenticide should be placed only in locations inaccessible to children, pets, wildlife and domestic animals or in tamper-proof bait boxes. If swallowed, call a physician immediately. Treat as for overdose of DICUMAROL anti-coagulant. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
