Attention: Mr. H. R. McLane

.

Subject	J. T. Eaton Bait Blocks® Rodenticide with Molasses/Peanut Butter Flavorizer [™] EPA Reg. No. 56-42 Your application of February 21, 2004
Purpose	The purpose of this submission is to revise your Confidential Statement of Formula (CSF), and label, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).
CSF	Your revised CSF (Basic Formulation), dated September 5, 2003, is acceptable. All other versions are obsolete. A copy has been placed in our files
Data	We reviewed the chemistry data (MRID No. 415391-01; 461985-01) and found them acceptable. We reviewed the acute toxicity data (MRID No. 450082-01 thru -06) and found them acceptable, provided the labeling is changed as modified below. Finally we reviewed the efficacy data (MRID No. 462072-01) and found them acceptable. However, in the future, you need to pay closer attention to the protocol, as outlined in the attached review.
Label	The labeling submitted with the above letter, is acceptable, provided you submit one (1) copy of final printed labeling to us, with the following changes, before you ship your product.

Label- continued	1. Under "CAUTION", change the third sentence to:
	May be harmful if swallowed or absorbed through the skin. Causes moderate eye irritation.
	2. Under the "FIRST AID", add the "IF IN EYES" text consistent with PR Notice 2001-1.
	3. Add this text as the first sentence in the "NOTE TO PHYSICIAN":
	This material may reduce the clotting ability of the blood and cause bleeding.
Existing stocks	Stocks of products with existing labels may be used for eighteen (18) months.
Consequence for non- compliance	If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
Questions	If you have questions about this letter, please contact me at 703-305-5407 (by phone), 703-305-6596 (by fax), or peacock,dan@epa.gov (by E-Mail).
	Sincerely yours,
	DARA

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its stabeling

READ THIS LABEL. Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use, in a location out of reach of children and pets.

2. Apply bait in locations out of reach of children, pets, domestic animals, and nontarget wildlife or in "tamper-resistant" bait stations These stations must be resistant to destruction by dogs and by children under six years of age and must be used in a manner that prevents such children from reaching Into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise Immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label.

USE RESTRICTIONS

For control of Norway rats, roof rats, and house rigce in and around homes, industrial buildings, and similar man made structures. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with foods. Do not broadcast the bait.

SELECTION OF TREATMENT AREAS

Determine areas where rats or mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. For best results, remove as much foodatulf, as possible, from the area to be baited.

APPLICATION DIRECTIONS:

• For Rats: For the 8 oz. size: This package contains enough bait to kill two (2) to seven (7) rats.

For the 12 oz. size; This package contains enough bait to kill three (3) to seven (7) rats.

Apply 2 to 8 blocks (4 to 16 oz. of balt) per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days.

• For Mice: While wearing waterproof gloves break each 2 oz. block into 3 pieces and piace 1 or 2 pieces at 8 to 12 foot intervals. Larger piacements (up to 3 pieces (2 oz.) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days.

 Follow up:: Replace contaminated or spoiled bait immediately. Collect and dispose of all dead animals and any left-over bait properly. To prevent reinfestation, limit sources of rodent food, water, and harborages as much as possible. If reinfestation does occur, repeat treatment.
 Where a continuous source of infestation is present, establish permanent bait stations and replenish with fresh bait as often as needed.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
