# ANSWER® II

Contains Silicon Dioxide and Synergized Insecticide

**Positive Insect Control For Living & Working Areas  
in and around the Home.**

**Odorless/Non-Staining**

**Controls Insects when Powder is either Dry or Wet.**

**Kills: Ants, Bed Bugs, Roaches, Silverfish, Waterbugs**

**For Fire Ant Control around the Property  
A Tomato/Vegetable Garden Dust  
A Rose & Floral Garden Dust**

**For Fleas, Ticks & Lice on Dogs & Cats only.**

**Also for Sowbugs, Crickets, Boxelder Bugs, Bed Bugs, Elm Leaf Beetles,  
Millipedes and the Nuisance Asian Multicolored Lady Beetles,**

**ACTIVE INGREDIENTS:**

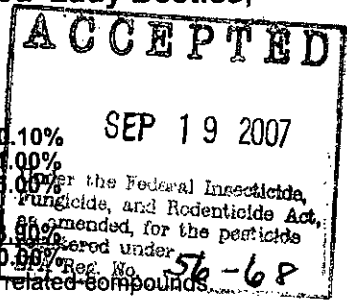

- Pyrethrin - . . . . . 0.10%
- Piperonyl Butoxide\* . . . . . 1.00%
- Diatomaceous Earth ( Including Silicon -  
Dioxide, other oxides and moisture) - . . . . . 98.90%

**OTHER INGREDIENTS: - . . . . .**

**TOTAL**

**100.00%**

\*Equivalent to 0.8% (butylcarbityl)(6-propylpiperonyl) ether and 0.2% related compounds

## CAUTION

**KEEP OUT OF REACH OF CHILDREN**

### FIRST AID

**IF SWALLOWED** - Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF IN EYES** - Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING**: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

**IF INHALED**: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice. Have this product container or label with you when calling a poison control center, or doctor, or when going for treatment. You may also call 1-800-858-7378 for emergency medical treatment advice. 09-07-07

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

## STORAGE AND DISPOSAL

**STORAGE:** Store this product in its original container in a dry, cool, secured area. Do not contaminate water, foodstuffs, feed, or seed by storage or disposal.

**PRODUCT DISPOSAL:** As a responsible environmental practice, where possible, it is recommended that all of the contents of the container be used, carefully following label directions and precautions. **IF EMPTY:** Do not reuse this container. Place in trash or offer for recycling if available.

**IF PARTLY FILLED:** Call your local waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**SPILL:** In case of spill, sweep up and dispose of material according to IF PARTLY FILLED directions listed above.

## READ ENTIRE LABEL BEFORE EACH USE DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is designed for both homeowners and professionals and gives fast effective insect control when powder is dry or even when it becomes moist or wet.

## PET POWDER Dogs & Cats Only.

For control of Fleas, Ticks and Lice on Dogs, and Cats only, sprinkle the dust over the back line of the pet and rub into the hair at the neck, ears, and rump until dust reaches pet's skin. Dust the belly, chest and neck and the insides of legs. Inspect ears, etc. for presence of Ticks and directly dust any that may be present. Do not get dust into pet's eyes or mouth. Do not use on puppies or kittens under 12 weeks of age. Dust pet sleeping quarters and replace with fresh bedding. Lightly "Puff" dust on to fresh bedding to deposit a barely visible thin film of residual dust for continued control. Repeat treatment every 7 to 10 days or as needed. Consult a veterinarian before using this product on debilitated, aged, pregnant, medicated or nursing animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

## HOME / RESIDENTIAL PEST CONTROL

Shake the container/applicator of this product vigorously to fluff the dust. To apply, remove lid and squeeze/puff the dust through the perforated cap.

### INDOOR INSECTS KILLED BY EATON ANSWER® II

Ants, Bed Bugs, Boxelder bugs, Cockroaches, Crickets, Elm Leaf Beetles, Fleas, Houseflies coming to rest on treated surfaces, Millipedes, Silverfish, Sowbugs, Ticks, even Garden Slugs entering indoor porch or patio areas which have been treated.

### WHERE TO APPLY

Apply behind stoves, refrigerators, under sinks, along baseboards, under the edges of rugs, in cracks and crevices, in window / storm window sills and frame openings, on and beneath porches and indoor patios where insects may accumulate and other places where insects are seen or breed. Use from 1 to 3 ounces of dust per room. For control of crawling insects (including cockroaches) indoors apply this product lightly to any area where crawling insects are seen, breed or have become a nuisance. For control, insects must come in contact with this product.

**FOR BED BUGS:** For control apply this product directly from this container by squeezing container to thoroughly apply light puffs of product to mattress surfaces, tufts, seams, and box springs. Dismantle and treat bed parts, joints and interior. Apply to cracks and crevices along bedroom adjacent flooring, baseboards, and moldings. Repeat treatment if needed.

08-24-07.

For information on this product or other pesticides (including health concerns, medical emergencies, or pesticide incidents) call the National Pesticide Telecommunications Network (NPTN) at: 1-800-858-7378. For emergency information on the proper use for pets call: 1-800-548-2423.

**For Ants,** apply along baseboards, entry crack and crevices and to areas of intensive ant activity such as doors and ant nests and trailways.

**For Fleas,** treat pet quarters, bedding, indoor kennel areas, and in pet resting areas such as under porches. Sleeping mattresses in the home may also be treated (aerate and vacuum before reuse). Apply monthly or as needed. Do not introduce the dust into air.

## KILLS FIRE ANTS and the Nuisance \*ASIAN MULTICOLORED LADY BEETLES AROUND, IN and on the HOME PROPERTY, FOUNDATIONS, LAWNS, PATIOS AND RECREATIONAL AREAS.

**USE AS A DUST:** For Fire Ants invert container and puff contents out of the perforated cap. First treat a circle 1 to 1 1/2 feet wide around the center of the ant mound. This will act as a barrier against ants that attempt to migrate. Then puff the dust on to the center and the rest of the mound. Apply enough so that the dust can be easily seen. It is not necessary to apply more than 6 ounces per 375 sq. ft. or 1 lb. / 1,000 sq. ft. Repeat as needed for control. \*This Lady Beetle is also known as HARMONIA SXYRIDIS. To prevent their entry into homes apply the dust directly to the beetles and areas where they become a nuisance by congregating on residential windows, screens, doors, porches, etc. This same control procedure should be followed for control of Boxelder Bugs and Elm Leaf Beetles.

## TOMATO / VEGETABLE ROSE & FLORAL DUST

**USE AS A DUST:** Invert container and puff contents out of the perforated cap to leave a thin dust film directly onto foliage, stems, fruit and vegetables, hitting as many insects as possible with the dust. As a general rule apply 1 pound of dust to treat average 2 to 3 feet high plants growing in a 20 x 25 sq. ft. area (500 sq. ft.). This product can be used for control of the following insects that may attack the list of vegetables and/or flowers. Repeat as needed for continued control.

### CONTROL THESE INSECTS ON THE PLANTS AS LISTED BELOW

Aphids, Armyworms, Blister Beetles, Cabbage Loopers, Cabbage Worms, Caterpillars, Colorado Potato Beetles, Corn Earworm, Cucumber Beetles, Flea Beetles, Garden Leafhoppers, Harlequin Bugs, Imported Cabbage Worms, Japanese Beetles, Leaf Miners, Leafhoppers, Lygus Bugs, Mexican Bean Beetles, Mites, Plant Bugs, Stink Bugs, Squash Bugs, Thrips, Vegetable Weevils, Webworm's and White Flies.

### ON THE FOLLOWING VEGETABLES
