NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Supply the results of an efficacy trial (as stated in Agency letter dated 9/18/95) which shows that Norway rats will enter your 4-oz. feeder boxes, eat the bait, and then die. This study is due by July 1, 1996. Protocol 1.217 should be used for this study.

3. Make the labeling changes listed below before you release the product for shipment:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 56-69."

4. Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

[Handwritten Signature]

DATE OCT 19 1995

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Robert A. Forrest
Product Manager (14)
Insecticide-Rodenticide Branch
Registration Division (7505C)

Manufactured in the U.S.A.

RIGHT PANEL

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

THIS IS NOT A TAMPER-PROOF OR TAMPER-RESISTANT BAIT STATION. DO NOT USE THIS PRODUCT IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, OR NONTARGET WILDLIFE. DO NOT USE THIS PRODUCT OUTDOORS.

This product may be used to control Norway rats (Rattus norvegicus), roof rats (Rattus rattus), and house mice (Mus musculus) in homes, and in industrial, commercial, or agricultural buildings. Do not place feeder boxes in areas where there is a possibility of contaminating food, water, or surfaces that come in direct contact with either.

SELECTION OF TREATMENT AREAS:

Determine areas where rats or mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, beside burrows (inside buildings only), or in corners and concealed places.

27

APPLICATION DIRECTIONS:

The amount of bait in one 4 oz. feeder box of this product is unlikely to be sufficient to kill more than one or two rats.

Rats: Place 1 to 4 feeder boxes at intervals of 15- to 30- feet along walls or in corners where rats or signs of rats have been seen.

Mice: Place single feeder boxes at intervals of 8- to 12- feet along walls or in corners where mice or signs of mice have been seen.

Rats and Mice: Replace feeder boxes if their contents have been consumed or contaminated, or if the units are severely damaged. Units not touched after three days should be moved to new locations where rat or mouse activity is evident and units can be placed without violating the requirements of this label.

Collect and dispose of all dead animals and leftover bait properly. To prevent reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

[LEFT PANEL]

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container, in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty container. Then dispose of empty container in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

PRECAUTIONARY STATEMENTS:

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep away from humans, domestic animals and pets. Keep away from feed or foodstuffs. May be harmful or fatal if swallowed or absorbed through the skin because this material may reduce the clotting ability of the blood and cause bleeding.

NOTE TO PHYSICIAN : If ingested, administer Vitamin K₁ intramuscularly or orally, as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply this product directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
