

## For Industrial Use O

### DIRECTIONS:

Contents for use only in treating forest products by pressure processes. Cannot be used in dry form. To be used only in water solutions having concentrations ranging from 1.0 percent to 5.0 percent.

Pressure treatment of forest products with time-tested Wolman Preservatives Salts provides wood in all its forms with "built-in" protection against termites, ascomycetes, white rot, brown and dry rot.

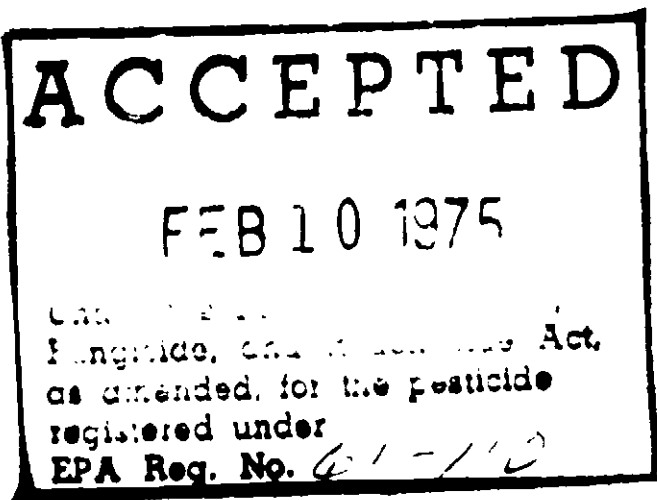

### PRECAUTIONS:

Do not get in eyes, on skin, clothing. Wear safety goggles and rubber gloves. Avoid breathing dust. Wash thoroughly after handling. Do not store near food or feed. Use with adequate ventilation.

### FIRST AID — CALL A PHYSICIAN

If swallowed, and if conscious, induce vomiting by sticking finger down throat or giving soapy or strong salty water to drink. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person.

In case of contact, immediately move contaminated clothing and shoes. Flush eyes or skin with plenty of water for at least 15 minutes. Wash clothing before reuse. Discard contaminated shoes.

**WARRANTY:** We warrant the material to comply with our published specifications and to be of good merchantable quality and further warrant it to be fit for the normal purposes for which such goods are used. We assume no liability outside of the general purposes of goods of the description.
