

KOPPERS

Wolman® Salts FMP Wood Preservative

MAY BE FATAL IF SWALLOWED, ABSORBED THROUGH THE SKIN, OR THE DUST BREATHED IN. CAUSES SEVERE BURNS TO THE SKIN AND EYES.

See first aid and other warning statements on right panel.

Net Wt. _____ lbs.

For Industrial Use Only

DIRECTIONS:

To be used only in vacuum pressure impregnation of forest products utilizing water solutions having concentrations ranging from 0.5 percent to 5.0 percent of Wolman Salts FMP by weight. Impregnation procedures must rigidly adhere to the current specifications of Koppers Company, Inc. and or those of the American Wood Preservers Association.

Pressure treatment of forest products with time-tested Wolman Preservative Salts provides wood in all its forms with "build-in" protection against termites, ascomycetes, white rot, brown rot and dry rot.

Active Ingredients:

| | |
|---|-------|
| Sodium Chromate | 34.2% |
| Sodium Fluoride | 27.5% |
| Disodium Arsenate | 23.8% |
| Sodium Pentachlorophenate | 7.8% |
| Sodium Salts of Other Chlorophenols and Related Compounds | 1.7% |
| Inert Ingredients | 5.0% |
| | 100.0 |

Arsenic, all in water-soluble form expressed as metallic, 9.59%.
U.S.D.A. Reg No. 61-124.

SPILLS: Sweep up or vacuum spills. Respiratory protection may be required during sweeping and disposing of vacuum collector contents.

Do not contaminate waters used for domestic consumption, irrigation, or fish and wildlife.

CONTAINER DISPOSAL: Do not reuse container. Tighten closure. Transport to drum reconditioner or destroy by perforating and crushing and bury in a safe place.

PRECAUTIONS:

Wear safety goggles and gloves when handling. Do not take internally. Wash thoroughly before eating or smoking. Do not get in eyes, on skin or on clothing. Do not breathe dust. Use only with adequate ventilation. Keep away from children, domestic animals and foodstuffs.

FIRST AID INSTRUCTIONS:

CALL A PHYSICIAN

In case of contact, immediately remove all contaminated clothing and shoes while flushing the skin or eyes with plenty of water for at least 15 minutes; get medical attention. Wash clothing before re-use and discard contaminated shoes.

If swallowed and if conscious, make patient vomit immediately (finger down throat) and call **A PHYSICIAN**. Give patient lime water and make vomit repeat until doctor arrives. If lime water is not available use a tablespoon of salt in a glass of warm water and repeat until fluid is clear.

Note to Physicians: Contains soluble arsenates and fluorides.

WARRANTY: We warrant that the product described herein will conform to the description and the general purpose for which it is intended.
