DIRECTIONS FOR USE

Remove plastic cap. Hold container upright. Point opening away from you and press button. Use indoors or outdoors.

For aphids, mites, thrips (exposed), white fly, lace bugs, climbing cutworms and Japanese beetles on ornamental plants and roses: Hold dispenser about 18" from foliage. Spray plant foliage lightly but thoroughly to wet both sides of leaves and insects that are present. Repeat treatments as necessary. Do not overspray as burning may result.

For black spot and powdery mildew on roses: Hold dispenser about 18" from foliage. Spray plant foliage lightly but thoroughly to wet both sides of leaves. Apply when new growth appears in the spring and repeat at 7 to 10 day intervals throughout the season. Do not overspray, as burning will result.

For use indoors apply sparingly in short bursts. For best results outdoors, spray in evening or on cloudy day when air is still. Use slow sweeping motion.

Kills aphids, mites, thrips (exposed), white fly, lace bugs, climbing cutworms and Japanese beetles on ornamental plants and roses. Controls black spot and powdery mildew on roses.
