

**KILL-KO**  
PRESSURIZED

MANUFACTURED FOR  
**RIGO CHEMICAL COMPANY**  
NASHVILLE, TENN. 37202

**DIRECTIONS: SHAKE BEFORE USING**  
NON-STAINING FRESH SCENTED

**KILL-KO FLY AND MOSQUITO INSECT KILLER** is an effective insect killer. It is recommended as a space spray for use in restaurants, hospitals, dairies, food storage warehouses, hotels and especially for household use. Its high percentage content, boosted by two synergists, gives fast knockdown of flying or crawling insects.

Do not remain in treated areas and ventilate the room after treatment is completed. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, stop only when plant is not in operation.

Hold can upright, point valve opening away from face, open valve to spray.

**TO KILL ROACHES, ANTS, WATER BUGS, SILVERFISH, GARDEN BEETLES:** Spray thoroughly on infested areas and directly on as many insects as possible. Spray into cracks and crevices, spray ant trails and areas where these pests enter the building. Spray top surfaces and undersides of carpets and rugs. For long-lasting results against crawling bugs, use **KILL-KO ROACH AND ANT KILLER** in accordance with directions on the label.

**TO KILL FLIES, MOSQUITOES, GNATS, FLYING MOTHS, WASPS AND HORNETS:** Close doors and windows. Spray freely toward ceiling in all directions. Spray directly on as many insects as possible. Leave room closed 10 to 15 minutes. Repeat as needed.

**TO KILL FLEAS:** Spray animal sleeping quarters and bedding freely. Spray floor and floor coverings and force spray into cracks. Repeat as necessary.

**TO KILL BEDBUGS:** Take bed apart and spray entire surface of bedstead, slats, springs and mattress. Spray thoroughly into cracks and joints in bedstead and on tufts and seams of mattress. Repeat as necessary.

**FOR OUTDOOR USE:** Spray in the general area of outdoor activities, on chairs, tables, ground and in surrounding areas to reduce annoyance from flies, gnats, and mosquitoes. Repeat frequently.

**WARNING:** Keep out of reach of children. Do not spray directly on food, dishes or kitchen utensils. Food should be removed or covered during treatment. Remove or cover fish aquaria from areas to be treated. Contents under pressure. Do not place container on stove or radiator or where temperature will exceed 120°F. Do not puncture or throw container into fire.
