PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after use.

Do not remain in treated areas and ventilate after treatment is completed. Do not spray directly on food, dishes or kitchen utensils. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when plant is not in operation.

ENVIRONMENTAL HAZARDS

May be harmful to fish. Do not apply directly to water. Remove or cover fish aquaria from areas to be treated.

PHYSICAL OR CHEMICAL HAZARD

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 degrees F. may cause bursting.

STORAGE AND DISPOSAL (10 pt.)

Storage: Store in a cool, dry location away from heat or open flame.  
Disposal: Do not reuse empty container. Wrap container and put in trash collection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

KILL-KO FLY AND MOSQUITO INSECT KILLER is a highly effective insect killer. It is recommended as a space spray for use in restaurants, hospitals, dairies, food storage warehouses, hotels and especially for household use. Its high Pyrethrins content, boosted by two synergists, gives fast knockdown to flying or crawling insects.

Shake before using. Hold can upright, point valve opening away from face, press valve to spray.

FOR INDOOR USE:

To kill roaches, ants, water bugs, silverfish, carpet beetles: Spray thoroughly on infested areas and directly on as many insects as possible. Spray into cracks and crevices. Spray ant trails and areas where these pests enter the premises. Spray top surfaces and undersides of carpets and rugs. For long-lasting results against crawling bugs, use KILL-KO ROACH AND ANT KILLER in accordance with directions on its label.

To kill mosquitoes, gnats, flying moths, wasps and hornets: Close doors and windows. Spray freely toward ceiling in all directions. Spray directly on as many insects as possible. Leave room closed 10 to 15 minutes. Repeat as needed. Remove pets, birds, and cover fish aquariums before spraying.

To kill fleas: Spray animal sleeping quarters and bedding freely. Spray floor and floor coverings and force spray into cracks. Repeat as necessary.

To kill bedbugs: Take bed apart and spray entire surface of bedstead, slats, springs and mattress. Spray thoroughly into cracks and joints in bedstead and on tufts and seams of mattress. Repeat as necessary.

For outdoor use: Spray in the general area of outdoor activities, on chairs, tables, ground and in surrounding air to reduce annoyance from flies, gnats and mosquitoes. Repeat frequently.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
