Foods should be removed or covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when plant is not in operation.

ENVIRONMENTAL HAZARDS

May be harmful to fish. Do not apply directly to water. Remove or cover fish aquarium from areas to be treated.

PHYSICAL OR CHEMICAL HAZARD

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 degrees F. May cause bursting.

STORAGE AND DISPOSAL (10 pt.)

Storage: Store in a cool, dry location away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

KILL-KO FLY AND MOSQUITO INSECT KILLER is a highly effective insect killer. It is recommended as a space spray for use in restaurants, hospitals, dairies, food storage warehouses, hotels and especially for household use. Its high Pyrethrins contents, boosted by two synergists, gives fast knockdown to flying or crawling insects.

Shake before using. Hold can upright, point valve opening away from face, press valve to spray

FOR INDOOR USE:

To kill roaches, ants, water bugs, silverfish, carpet beetles: Spray thoroughly on infested areas and directly on
