DIRECTIONS FOR USE

This spray is especially designed for use in cafes, restaurants, food storage warehouses, flour mills, meat packing plants, poultry processing plants, poultry houses, milking parlors, and the like. (Meat Inspection Division Memorandum No. 52-- Insect Sprays.) This spray may be used in either fogging equipment or hand sprayers.

Flies, Mosquitoes, Gnats: Close room and discharge mist vigorously in all parts of room, using 1/2 to 2 ounces for each 1000 cubic feet of space. Leave room closed for at least ten minutes. Sweep up and destroy fallen insects. Repeat as needed.

Fleas (Infesting Premises): Remove and destroy animal's bedding and spray sleeping quarters freely, forcing the spray into all cracks in the floor and about the room. Repeat when re-infested.

Roaches, Waterbugs: Apply in all cracks and crevices in woodwork, underneath sinks, dark places behind pipes, and in all places where roaches and waterbugs infest, contacting as many insects as possible. Repeat the operation as often as necessary.

Clothes Moths, Carpet Beetles: Spray all articles to be protected giving particular attention to folds and seams. Interior surfaces of storage containers such as closets, chests and trunks should be sprayed regularly. This treatment should be repeated every 30 days unless the articles are stored in mothtight containers.
