USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply this insecticide uniformly to home lawns and other ornamental and recreational turf grass areas using any hand or power operated gravity or rotary type spreader designed for application of granular materials. Treat when insects first appear using this product at the rates given in the table below. To help obtain uniform distribution, apply one-half of the required amount of product in one direction, then apply the balance at a right angle immediately after application. Sprinkle the turf with water so as to wash the granules into the zone of insect infestation. Consult the following table to determine amounts of this product and water needed for areas to be treated. Re-treat as necessary.
