DIRECTIONS

For protection of roots of newly set plants against wireworms, and cutworms, use 2 ounces of Kill-Ko Tobacco Treater in 50 gallons of transplanting water. Apply this mixture at the rate of 1/2 pint to the plant or about 250 gallons of the mixture per acre. Do not dip tobacco roots directly into solution as root damage may occur. Do not apply to root crops nor use in soil to be planted to root crops within one year.

ENVIRONMENTAL CAUTIONS

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. Do not apply where runoff is likely to occur.
