U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
70-269

Date of Issuance:
AUG - 6 2004

NOTICE OF PESTICIDE:
 Registration
 X Reregistration

Term of Issuance:
Unconditional

Name of Pesticide Product:
Rigo Neat 'N Clean
Extra Strength
Systemic Weed & Grass
Killer Ready-to-Use

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Verdant Brands, Inc
9555 James Avenue South, Suite 200
Bloomington, MN 55431-2543

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above with the provision that you make the following changes to your label before you release the product for shipment.

1. Revise the Environmental Hazards Statement to read "Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.
2. Revise your Storage and Disposal to read as below. See PR Notice 2001-6 for detailed discussion.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep container closed to prevent spills and contamination. Do not freeze.

Disposal: Do not reuse this container (except to refill with "Neat 'N Clean Concentrate Systemic Weed and Grass Killer". See "How to Apply" section for refill instructions.

If Empty: Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste Agency or (insert toll free telephone number which meets the criteria of paragraph II. E) for disposal instructions. Never place unused product down any indoor or outdoor drain.

Signature of Approving Official:

Date:

8/6/04

Enclosed is a copy of your label stamped "Accepted With Comments". This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain registration of your product.

Please submit two (2) copies of labeling bearing the above changes before you release the product for shipment.

Kills Weeds and Grasses on Contact – Roots and All

Doesn't Affect the Soil

Active Ingredient:

Glyphosate, Isopropylamine Salt of
N-(Phosphonomethyl) Glycine).....0.96%

Inert Ingredients:.....99.04%

Keep Out of Reach of Children

CAUTION

See Back Panel For Additional Precautionary Statements

EPA Reg. No. 70-269

Net Contents: 24 Ounces

EPA Est. No. 44616-MO-1

Manufactured For:
Value Garden Supply, LLC
222 Sylvania Ave.
P. O. Box 997
St. Joseph, MO 64501

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: If swallowed may cause gastrointestinal tract irritation. Wash thoroughly with soap and water after handling. Keep children and pets off treated area until spray is thoroughly dry.

FIRST AID

If swallowed:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

Environmental Hazards

Keep out of lakes, streams, and ponds. Do not contaminate water by disposal of waste or cleaning of equipment.

Storage and Disposal

Avoid contamination of seed, feed, and foodstuffs. Keep container closed to prevent spills and contamination. Do not freeze.

When empty container is discarded, wrap container and put in trash collection.

READ THE ENTIRE LABEL

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. When used as directed, this product controls most weeds, grasses, sedges or brush species, including hard-to-control broadleaf weeds like dandelion and thistle and grasses such as fescues, bermudagrass, and crabgrass.

This product is absorbed by foliage and moves throughout the plant resulting in destruction of both the treated foliage and its supportive root system. Visual effects are a gradual wilting and yellowing which generally develop in five to ten days and advance to a complete browning or deterioration of foliage and underground plant parts.

This product does not harm adjacent desirable plants that are not sprayed. It has no residual soil activity so plants that are seeded or emerged after application will not be affected.

WHERE TO APPLY

Ornamentals: Apply this product to control undesirable plants growing around ornamentals, trees or shrubs. Spray contact, other than with mature bark of desirable plants may cause injury.

Trimming and Edging: Apply this product to control undesirable plants growing along the edges or in cracks or crevices of sidewalks, driveways, curbs, patios or similar areas.

Landscaping: Apply this product to control undesirable weeds or grasses growing in areas where plantings or ornamentals, trees, shrubs, desert landscapes, rock gardens, flower beds or similar plantings will be made.

Lawns: Apply this product to control undesirable weeds growing in lawns. Spot treating undesirable weeds in a lawn will cause a dead spot until sufficient growth occurs to close the area. Larger spots will require reseeding to provide complete grass cover and help prevent re-infestation by undesirable plants.

General Weed Control: Apply this product to control undesirable plants growing in fences, around physical ornaments, buildings, tool sheds or other areas where control is desired.

WHEN TO APPLY

Apply this product when weeds, grasses or undesirable plants are actively growing. Performance may be reduced if weeds are wilted, have insect damage, or have recently been clipped or mowed. Adequate foliage must be present to receive the spray.

If rainfall occurs within six hours after application, the product may be washed off treated foliage requiring a repeat application.

Avoid making application during windy conditions that may result in spray drift to desirable plants.

HOW TO APPLY

This product is supplied ready to use without further mixing or dilution. It should be applied using the applicator-container as a foliage spray to weeds and grasses. Do not add water or other materials to the product. TO REFILL: Add 1 part of NEAT 'N CLEAN Concentrate Systemic Weed and Grass Killer to this empty container and add 4 parts of clean tap water to make the finished spray solution. Example: 3 ounces of Concentrate plus 12 ounces of water. Use according to directions on this label.

Spray directly on the foliage of weeds or other undesirable plants. The spray should be directed and the nozzle tip adjusted so that only undesirable plants

receive spray. The sprayer tip should be held approximately six inches from the foliage. Coverage should be complete and uniform stopping just before the spray begins to drip or run off the foliage.

Avoid spray contact with desirable plants. If desirable plants are accidentally sprayed, injury may be reduced or prevented by thoroughly flushing with water immediately.

Treated plants should not be mowed or disturbed by tillage, digging or slicing for seven days after application to allow time for the product to be absorbed and moved to the root systems.

KILLS ANNUAL WEEDS

Annual Bluegrass	Henbit	Red Dead Nettle
Common Fiddleneck	Lambsquarter	Redroot Pigweed
Common Ragweed	Large Crabgrass	Sandspur
Chickweed	London Rocket	Shepherds purse
Cudweed*	Mayweed	Sowthistle
