REG. U. S. PAT. OFF.

NONFLAMMABLE REFILLABLE

CAUTION: KEEP OUT OF REACH OF CHILDREN.

U. S. Dept. of Agriculture

'GET THE BEST

GET AEROSECT™

THE WONDER INSECTICIDE

The contents of this container is released as a fine mist and is very efficient. Only a small quantity is needed to kill insects. For spraying time required for various insects see booklet.

INSTRUCTIONS FOR OPERATION

To operate, turn handle of valve counter-clockwise, not over half turn. Hold container with valve at top. Open valve for a few seconds, or until mist is throughout room. To close, turn valve clockwise in dispensing a mist upward. It is not necessary to spray flying insects. This dispenser will treat approximately 150,000 cu. ft. of space for mosquitoes and flies. For other insects see booklet.

The spray should be held at least two feet from walls, draperies, clothing, etc., to avoid staining. Do not store in temperatures above 140°F. Do not remove with fusible plug in end of cylinder.

ACTIVE INGREDIENTS: Mineral Oil, 1.6%; Pyrethrins, 0.4%; Sesame Oil, 8.0%.

INERT INGREDIENTS: Dichlorodifluoromethane, 96.0%

EMPTY CONTAINER MAY BE RETURNED FOR NEW FULL ONE AT LOWER PRICE THAN ORIGINAL.

Pa. Eng. Co. Pat. No. 2355550

MANUFACTURED IN U.S.A. BY PENNSYLVANIA ENGINEERING COMPANY PHILADELPHIA, PA. 19123
